

Charting Your Own Course: Escape the Risk Matrix with Integrated Risk Thinking

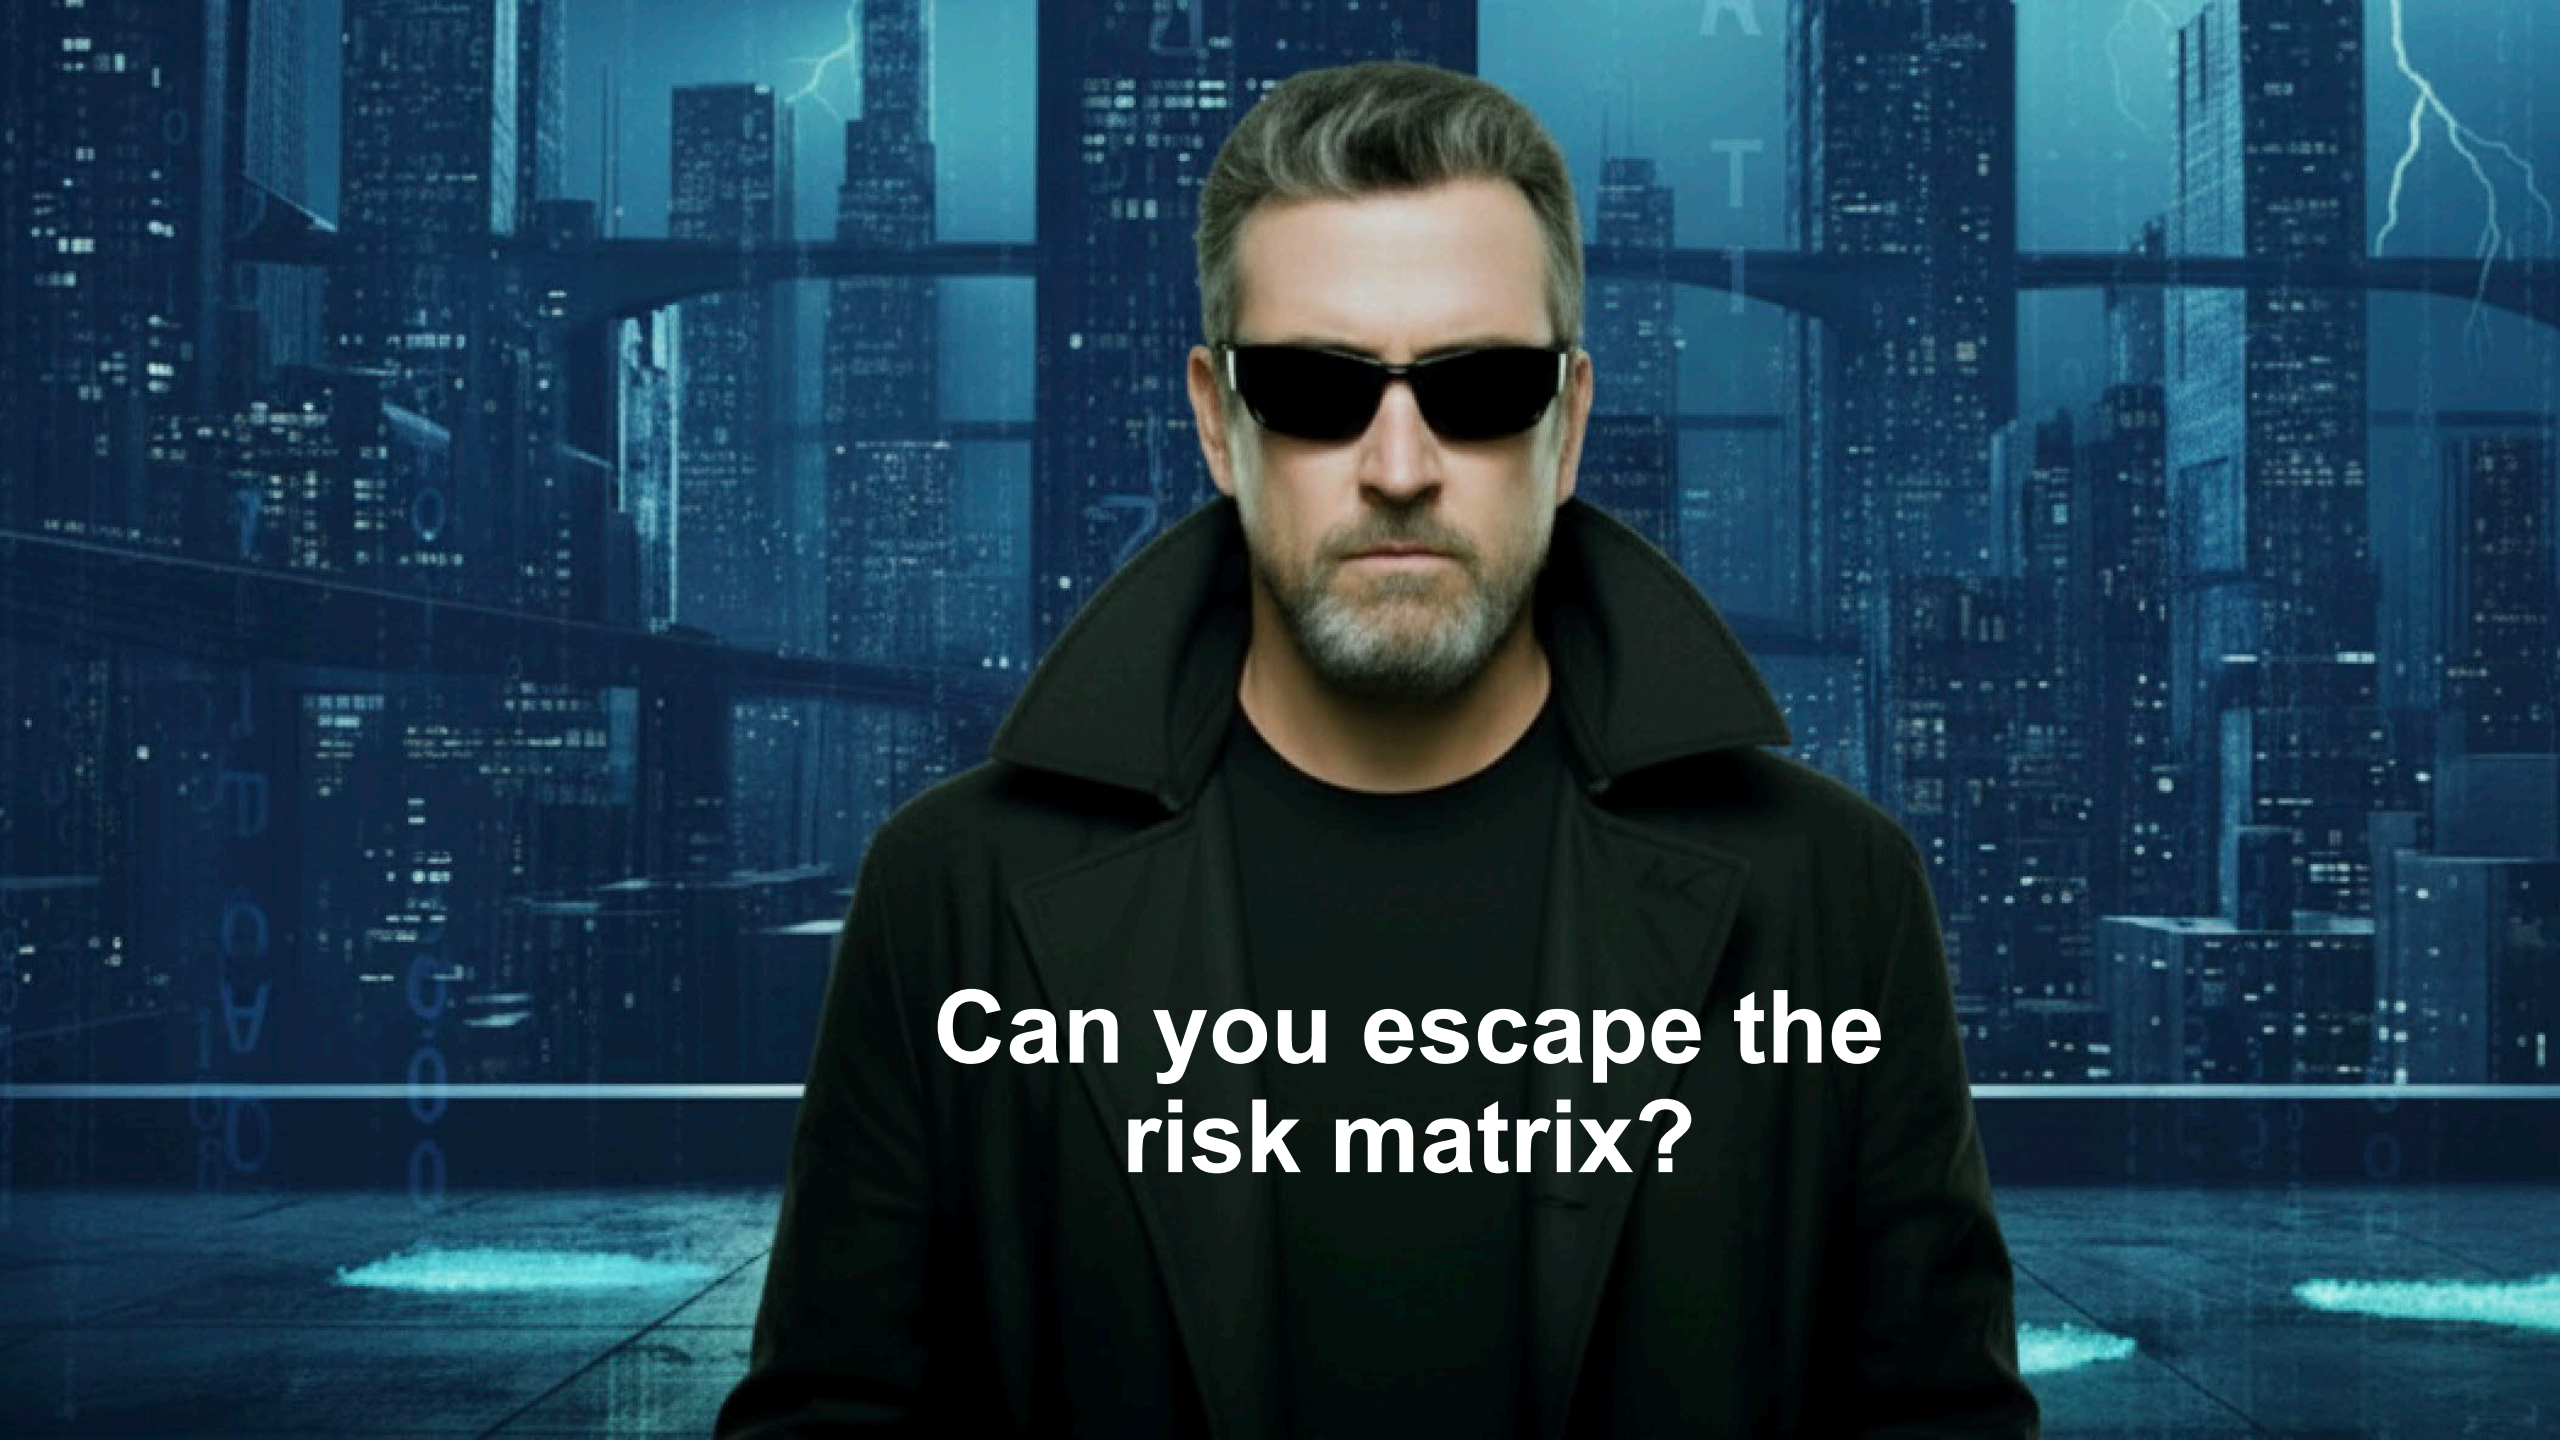

SPEAKER

John A. Wheeler

Founder & CEO | Wheelhouse Advisors

CONNECTING RISKS THAT MATTER

2025  KOnnect

A man with short, light-colored hair and a beard, wearing dark sunglasses and a black trench coat, stands in the center. The background is a stylized, blue-toned digital cityscape with skyscrapers and glowing lines. Overlaid on the background are various digital elements: a large 'RT' in the upper right, a lightning bolt in the top right corner, and vertical columns of binary code (0s and 1s) on the left and right sides. The overall aesthetic is futuristic and high-tech.

**Can you escape the
risk matrix?**

The choice is yours

ONE keeps you trapped.
ONE gets you thinking high.

CONNECTING RISKS THAT MATTER

Our course for today

OBJECTIVE:
break free from risk silos

FOCUS:
integrated risk thinking
through a “PRACTical” path
of managing risk

OUTCOME:
balanced decisions that
move faster

Business is lost in the matrix of risk

REAL-WORLD PROOF: Car manufacturer cyber incident September 2025

- Plant shutdowns across UK, Slovakia, Brazil, India
- Dealer and supplier operations disrupted
- Estimated £5M per day in losses

Source: [IRM Navigator™ Viewpoint Report - 2025 Edition](#), industry reporting, Sept 2025

Risk in 2025

- Disruption velocity
- AI uncertainty and model drift
- Regulatory churn
- Stakeholder trust deficit

Reality check for today's organizations

71%
lack an
integrated view

72%
cite weak
awareness and
communication

36%
share common
taxonomies

Result = risk silo thinking

Reality check for you

What is the most difficult challenge you face navigating today's risk matrix?

KCONNECT25K4

IRM leadership personas

SENIOR EXECUTIVE:
outcomes and portfolio risk

INSURANCE MANAGER:
transfer aligned to retained risk

RISK MANAGER:
cross-functional alignment

COMPLIANCE MANAGER:
obligations to evidence

My **RED PILL** moment

- Aggressive growth target. Mortgage controls loosened.
- Public outcomes years later:
 - ~\$4.85B in TARP support during the crisis
 - Nearly \$1B mortgage-abuse settlement with DOJ in 2014
 - Subsequent merger to stabilize and move forward

Source: [The Risk Ignored Series – Wheelhouse Advisors](#), SEC public filings and US DOJ announcement (2014)

The questions leaders ask

**How would we be positioning ourselves with
strategic investments in technology
the business?**

What integrated means

- Balanced risk view along the PRACTical path:
 - Performance
 - Resilience
 - Assurance
 - Compliance
- Shared language and measures
- Coordinated focus

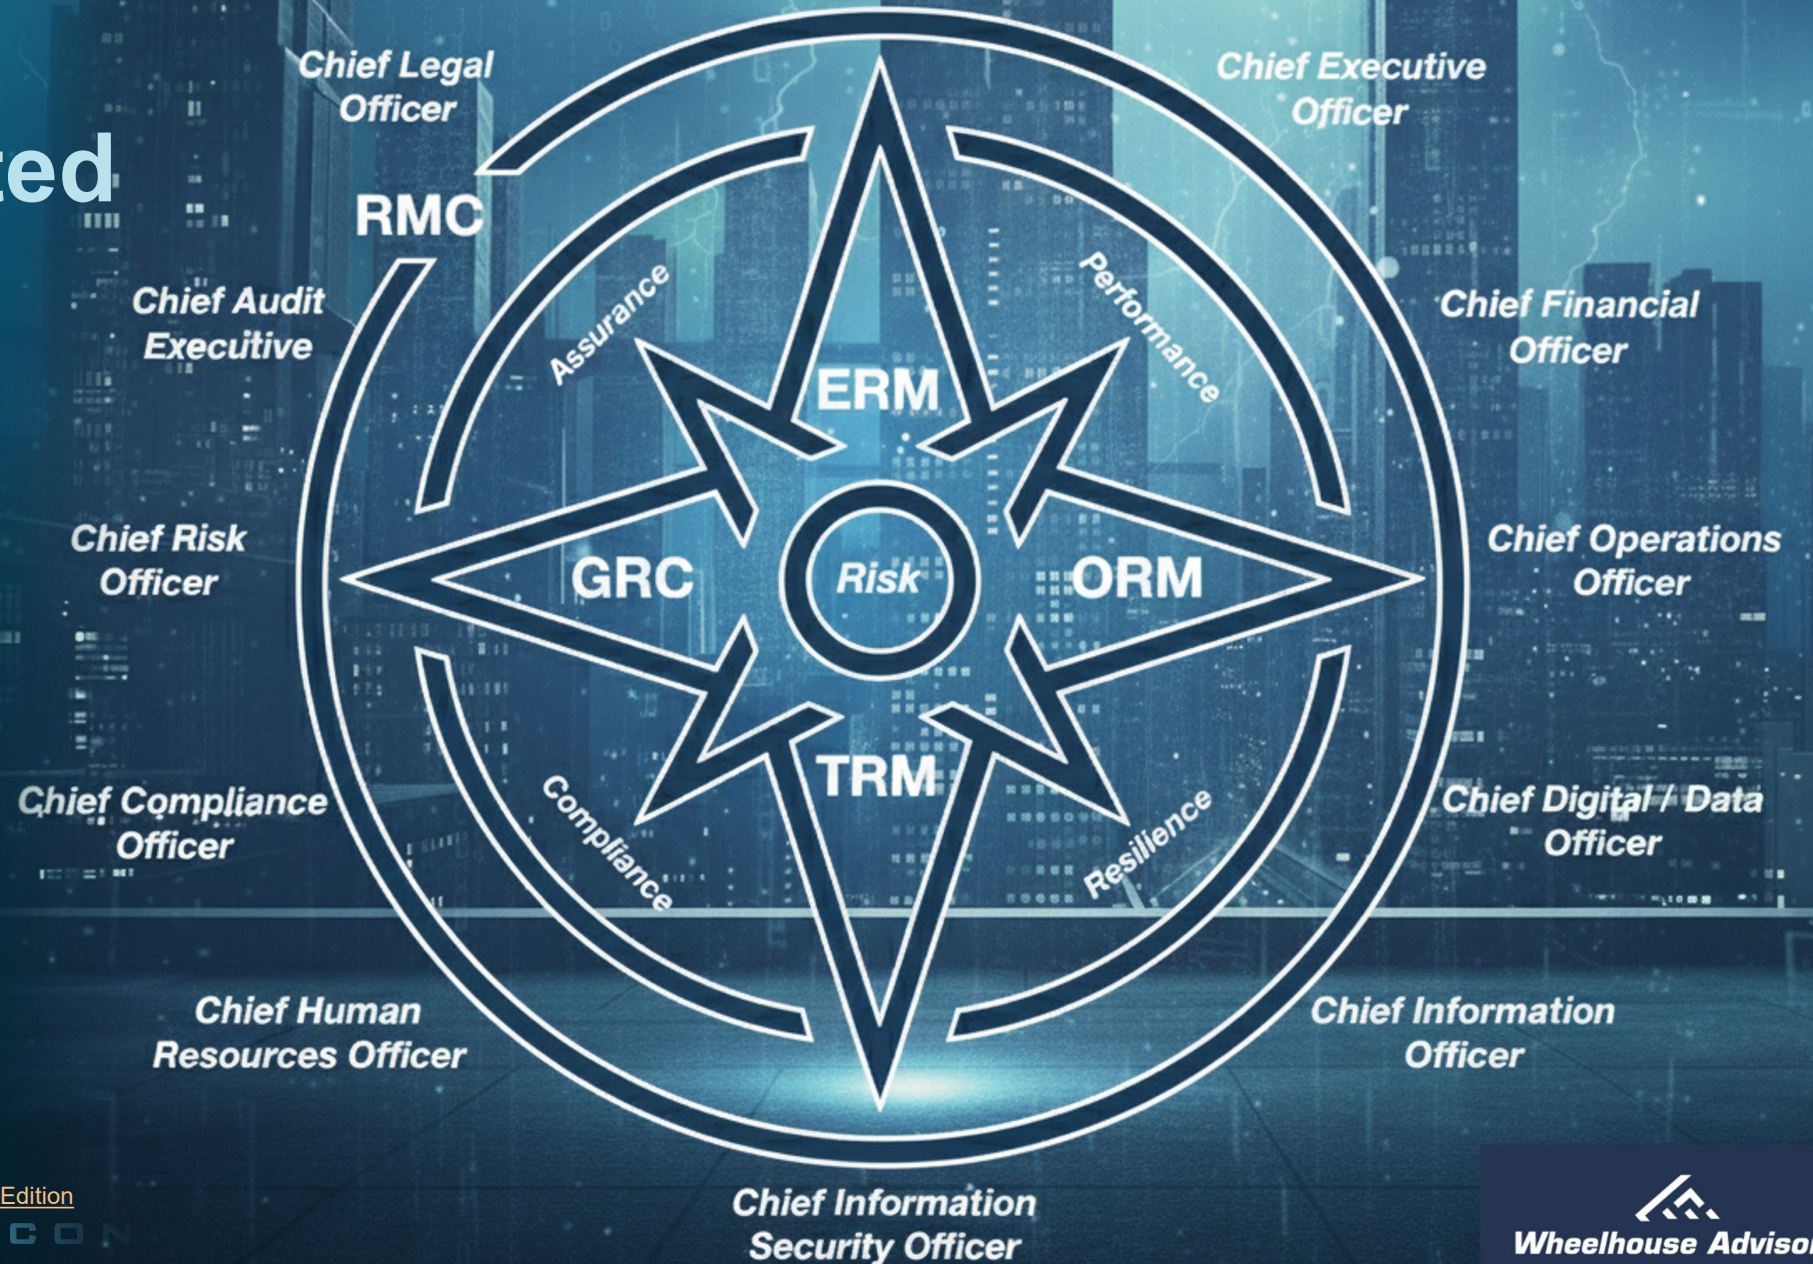

PRAC - interconnected by design

PERFORMANCE

RESILIENCE

ASSURANCE

COMPLIANCE

The IRM Navigator™ – a way forward

ABEENS

- Define objectives, owners, timelines
- Map RAC objectives language
- Instrument evidence as work happens
- Trace risks and controls to outcomes
- Check for RAC imbalance
- Close the loop to RAC outcomes before commitment
- Quantify trade-offs and surface evidence gaps
- Assign cross-functional owners

Three traps to avoid

Metrics that reward parts, not strategic outcomes

Choose your course

Escape the risk matrix!
