

Unstoppable: Risk Supercharged

Early warning. Deeper insight. Rapid response. Maximum impact.

Jim Wetekamp

CEO | Riskonnect, Inc.

2026 KOnnect

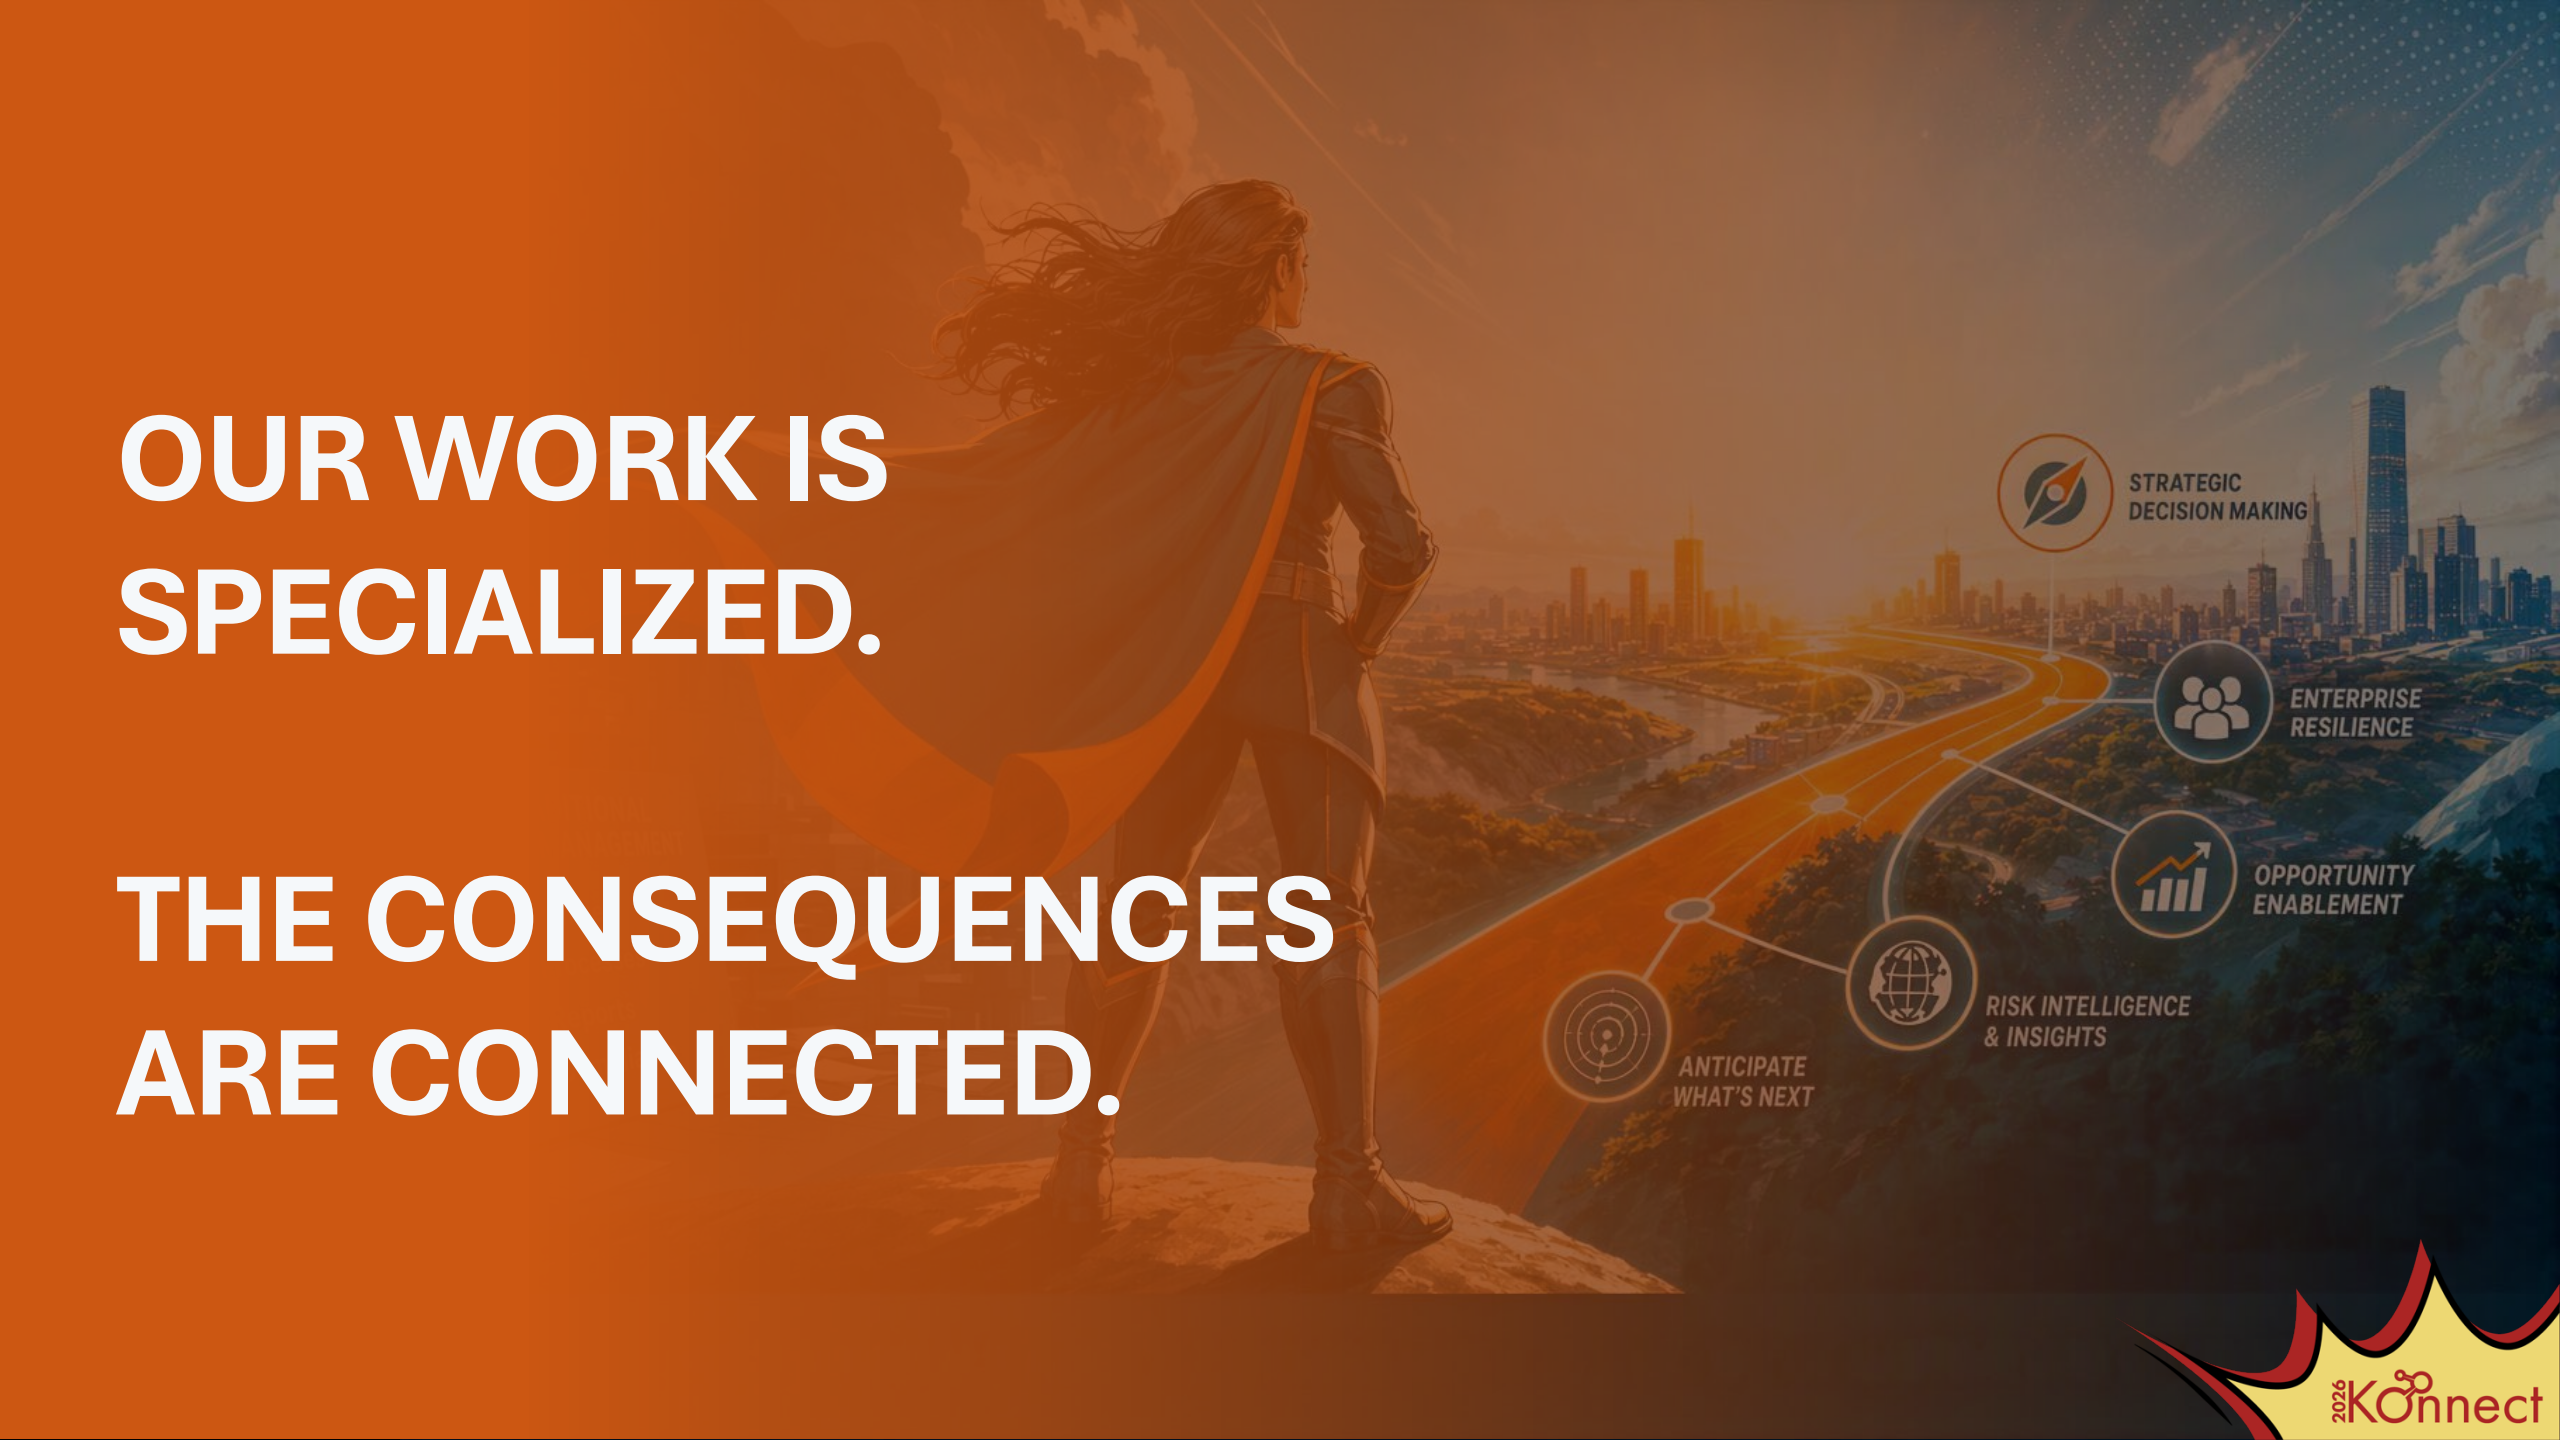

“One spill. Six people exposed. Six separate injury reports. Six versions of the same event.”

2026 KOnnect

OUR WORK IS SPECIALIZED.

THE CONSEQUENCES ARE CONNECTED.

The mandate has changed

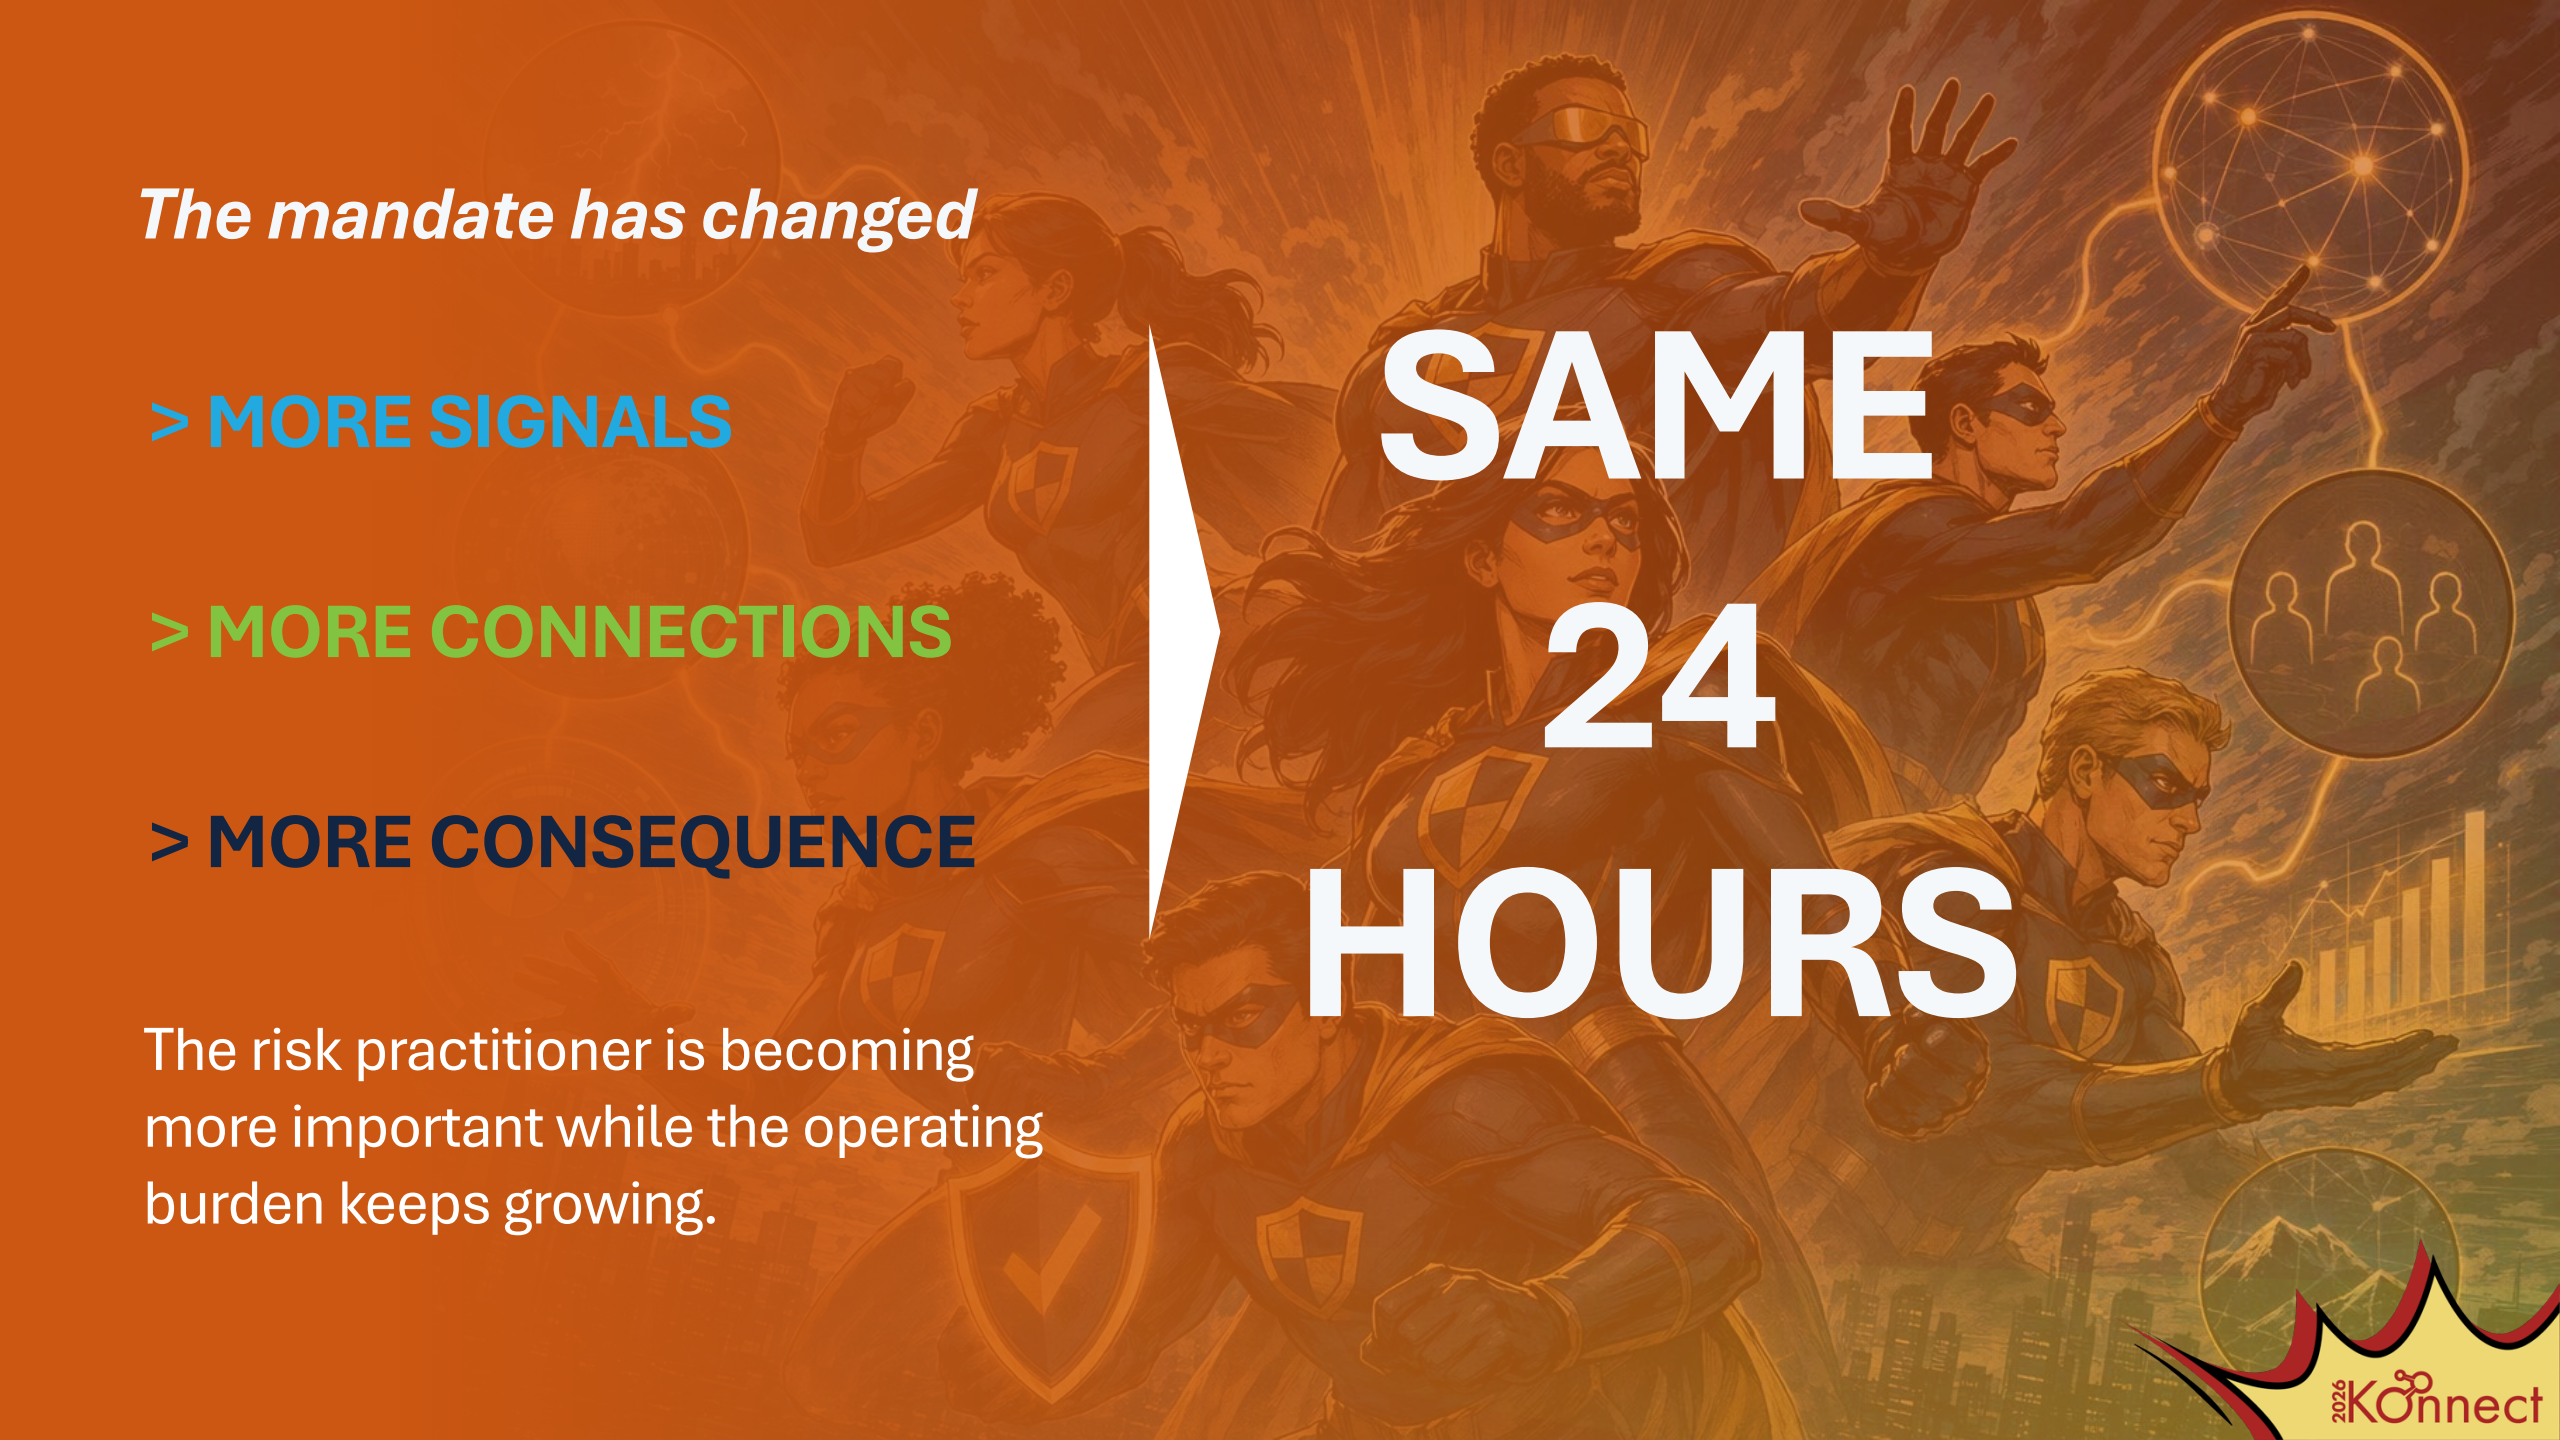

> MORE SIGNALS

> MORE CONNECTIONS

> MORE CONSEQUENCE

The risk practitioner is becoming more important while the operating burden keeps growing.

SAME 24 HOURS

2026 KOnnect

“ Who else in my company is making decisions with week-old data? “
2026 KOnnect

The mandate is outrunning practitioner capacity

MANDATE

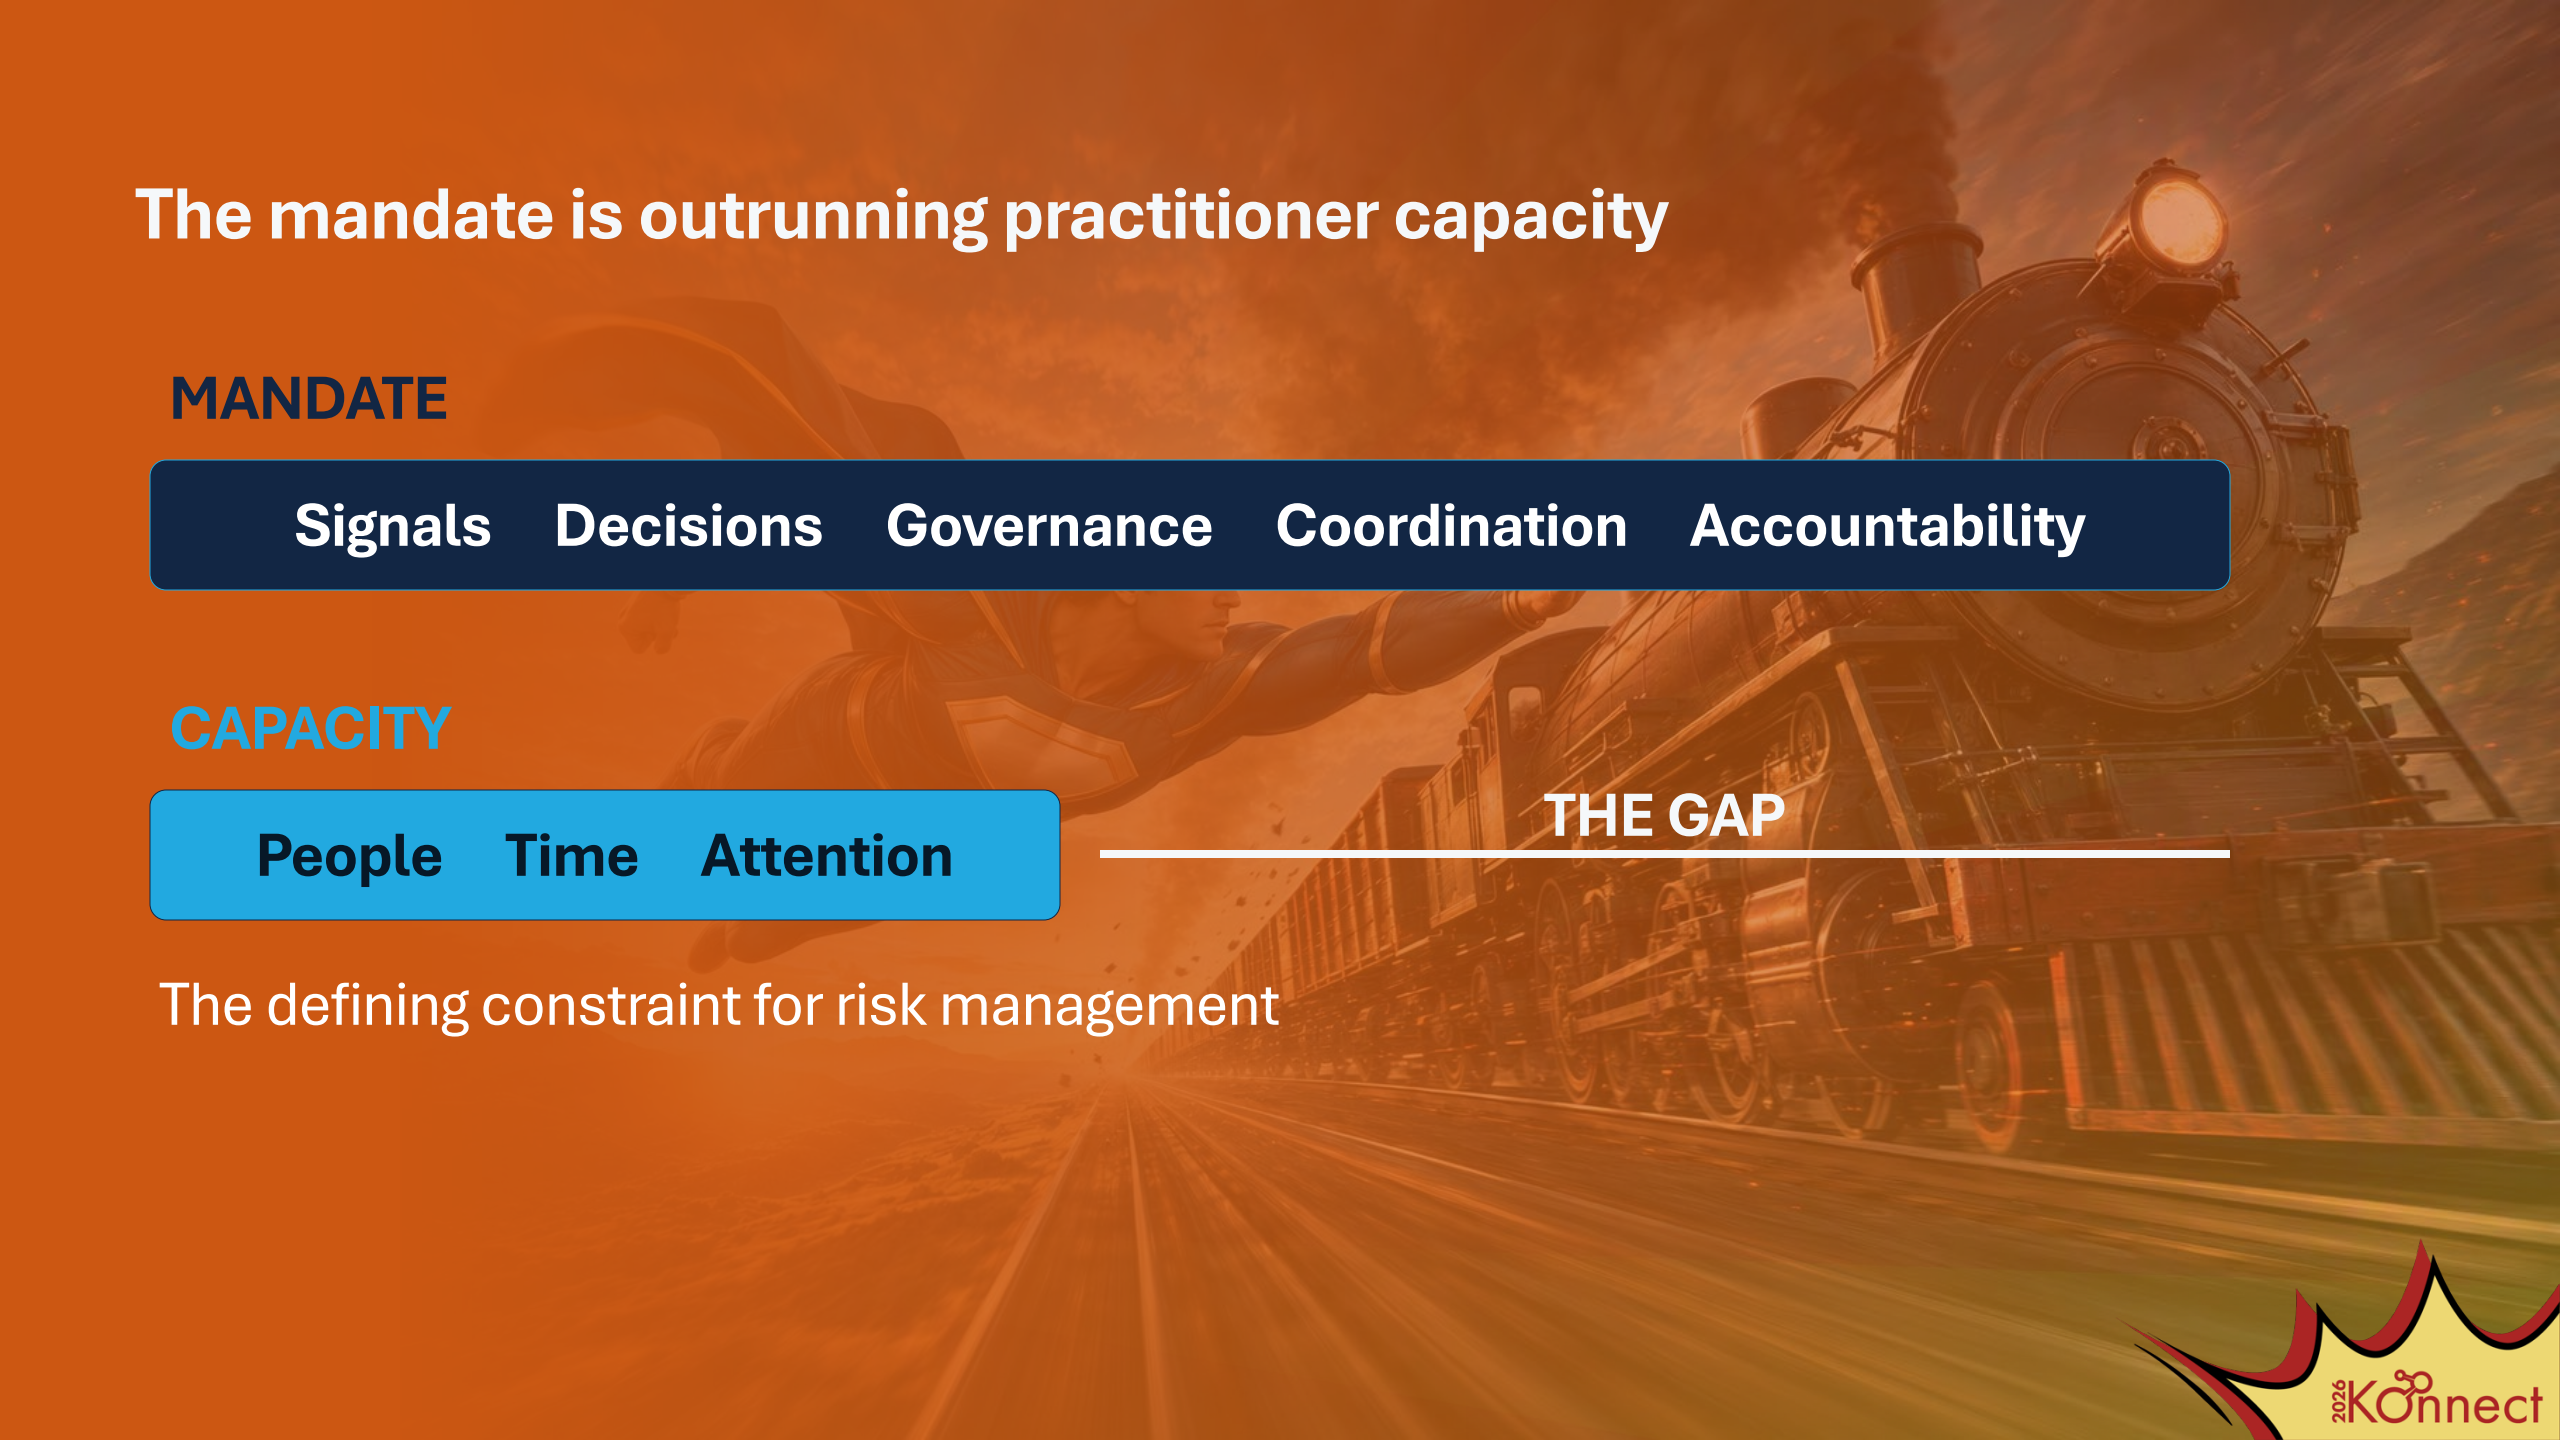

Signals Decisions Governance Coordination Accountability

CAPACITY

People Time Attention

THE GAP

The defining constraint for risk management

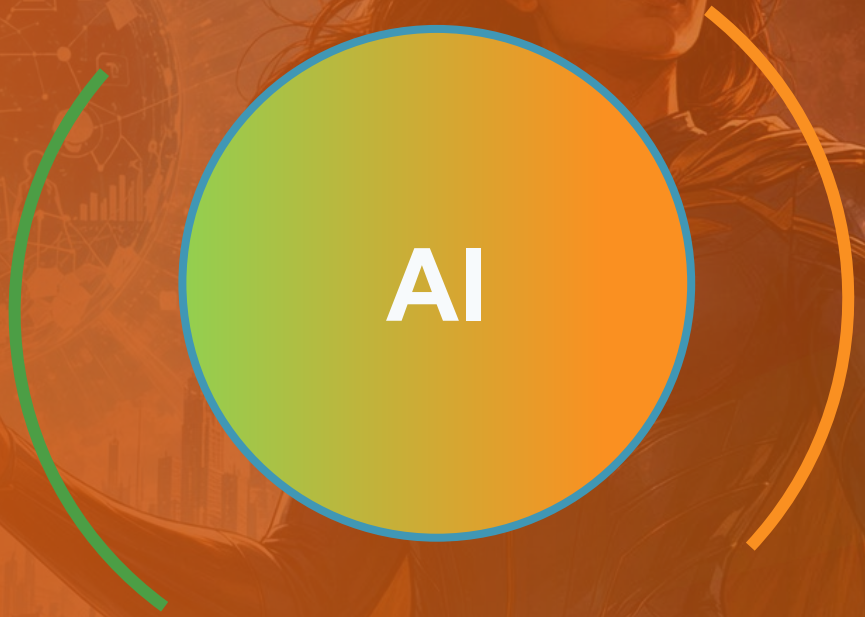

“For the love of all things holy, I can't function like this.“
2026 KOnnect

AI expands both capability and exposure

CAPABILITY

- Filter noise
- Find patterns
- Summarize context
- Coordinate work

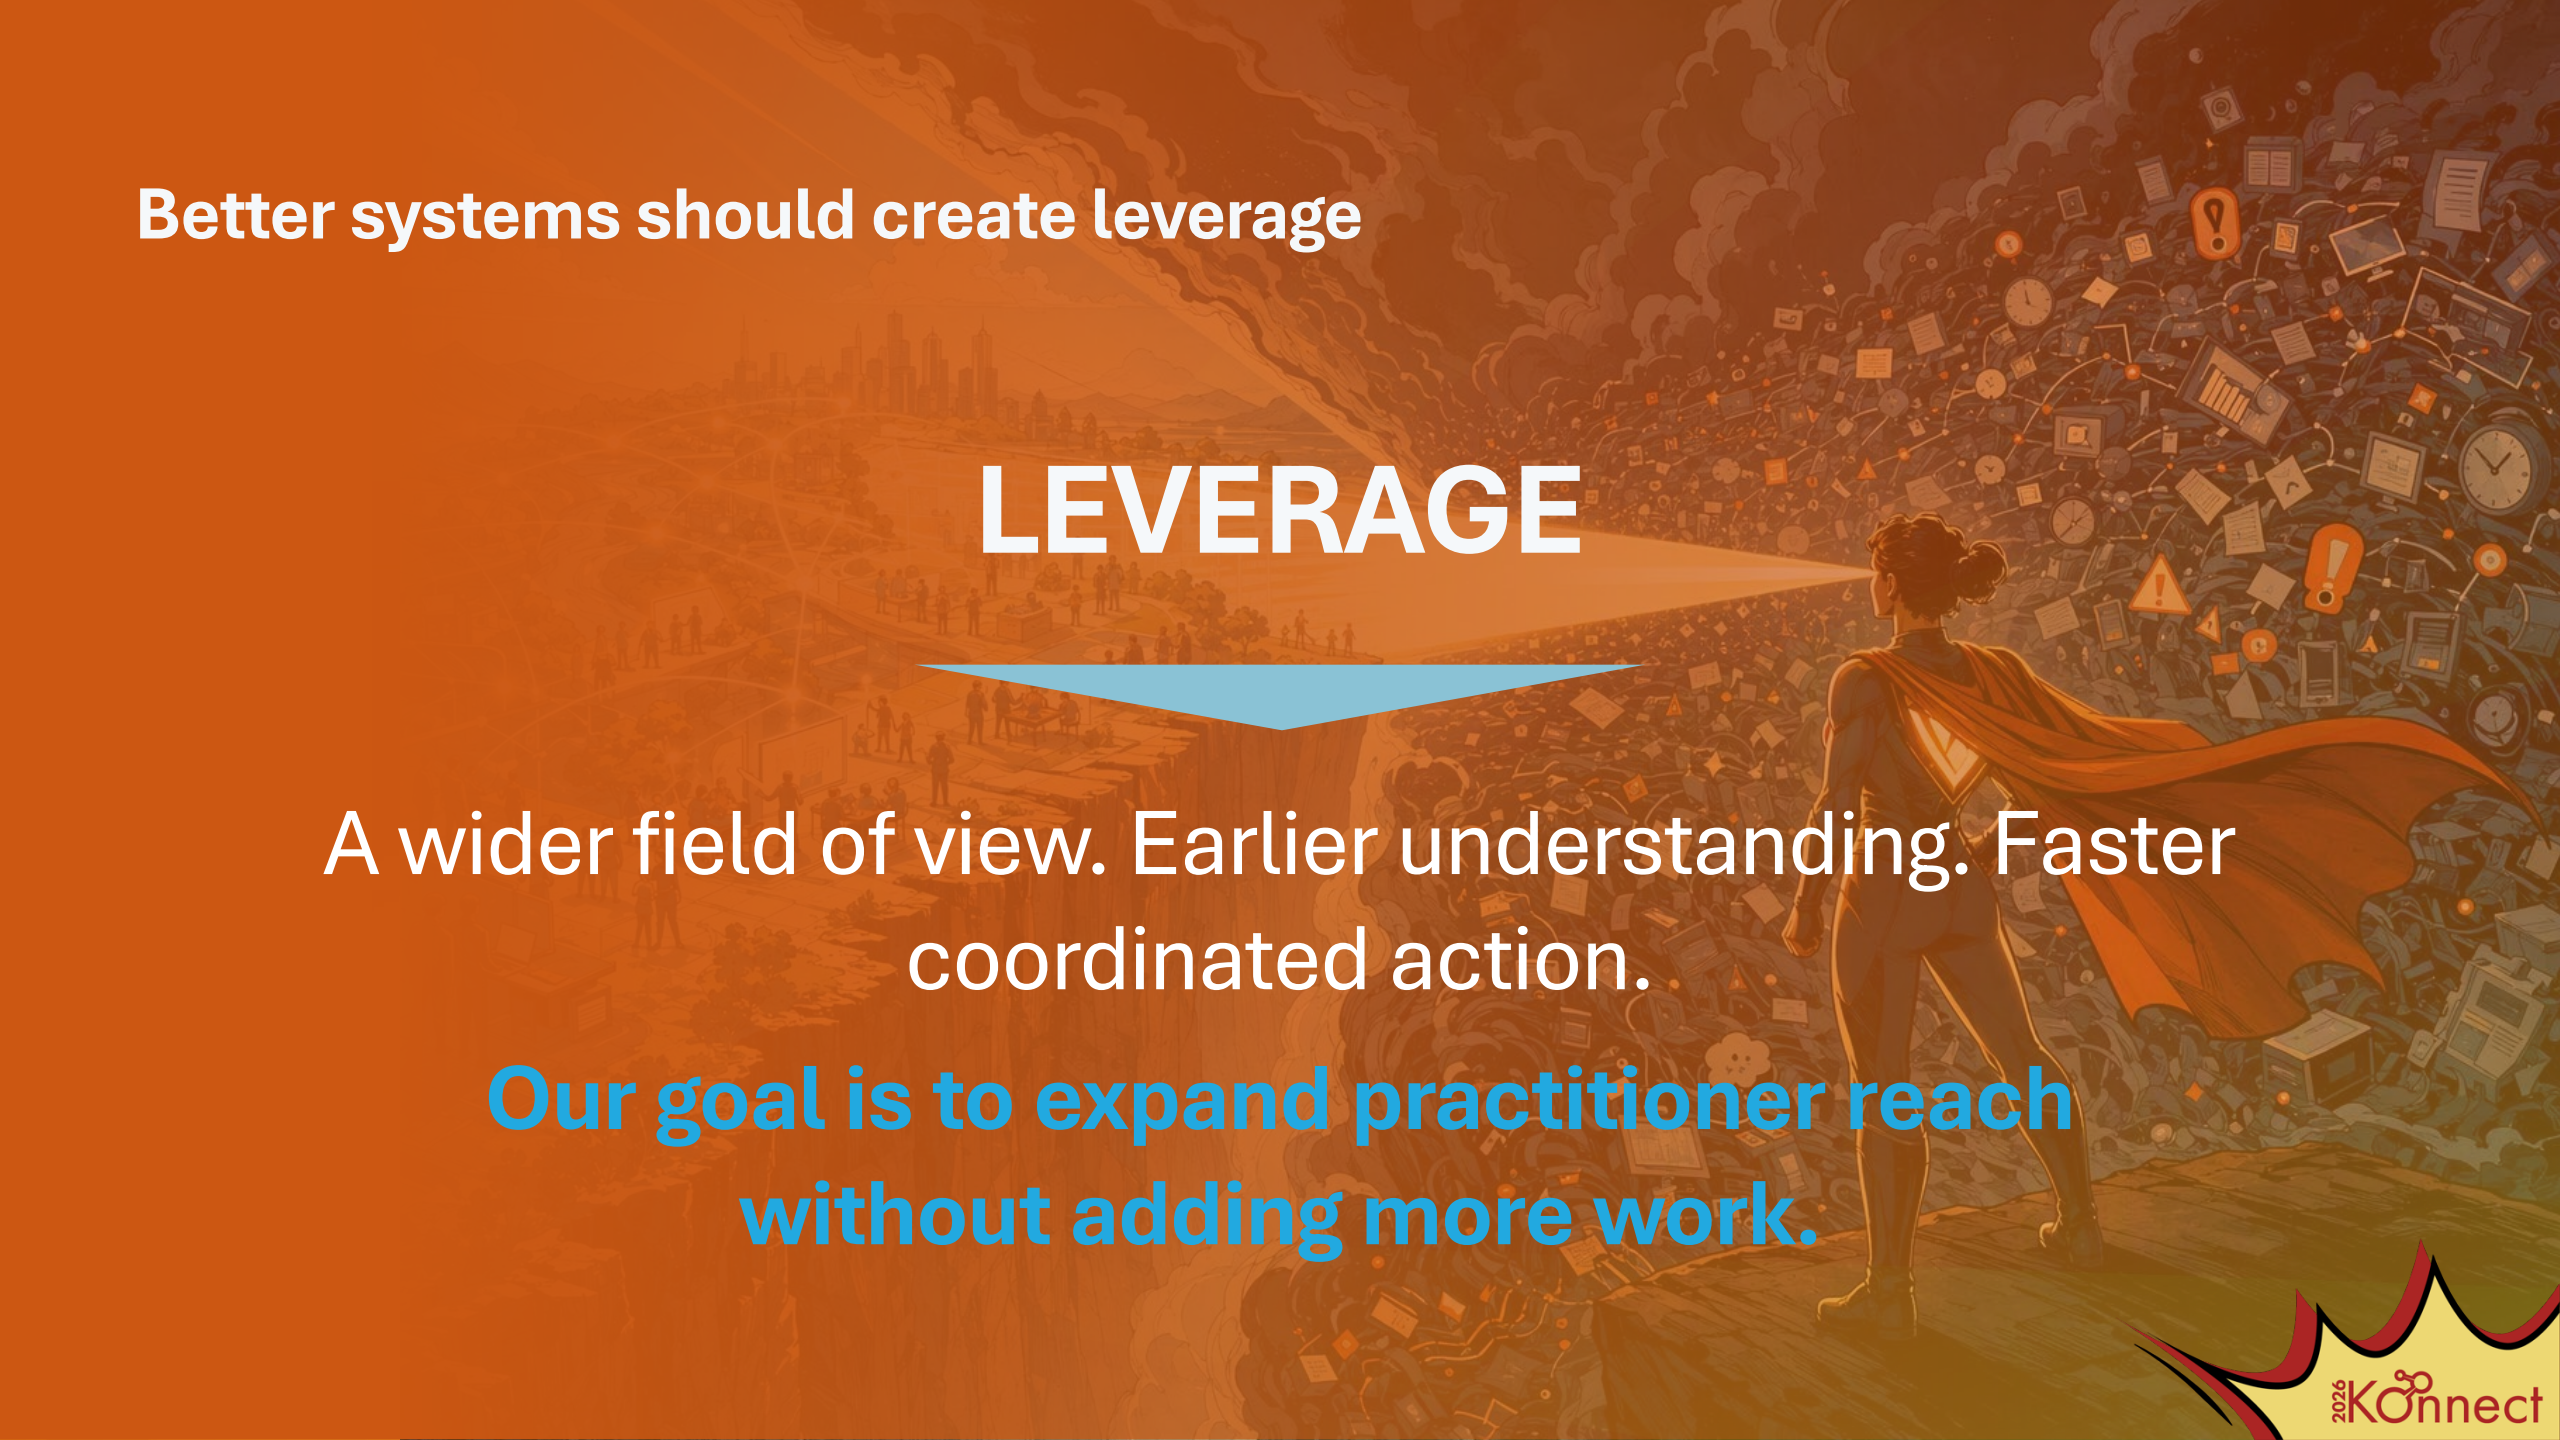

EXPOSURE

- Autonomous action
- New dependencies
- Control gaps
- Accountability

AI can extend practitioner capacity. It cannot inherit practitioner accountability.

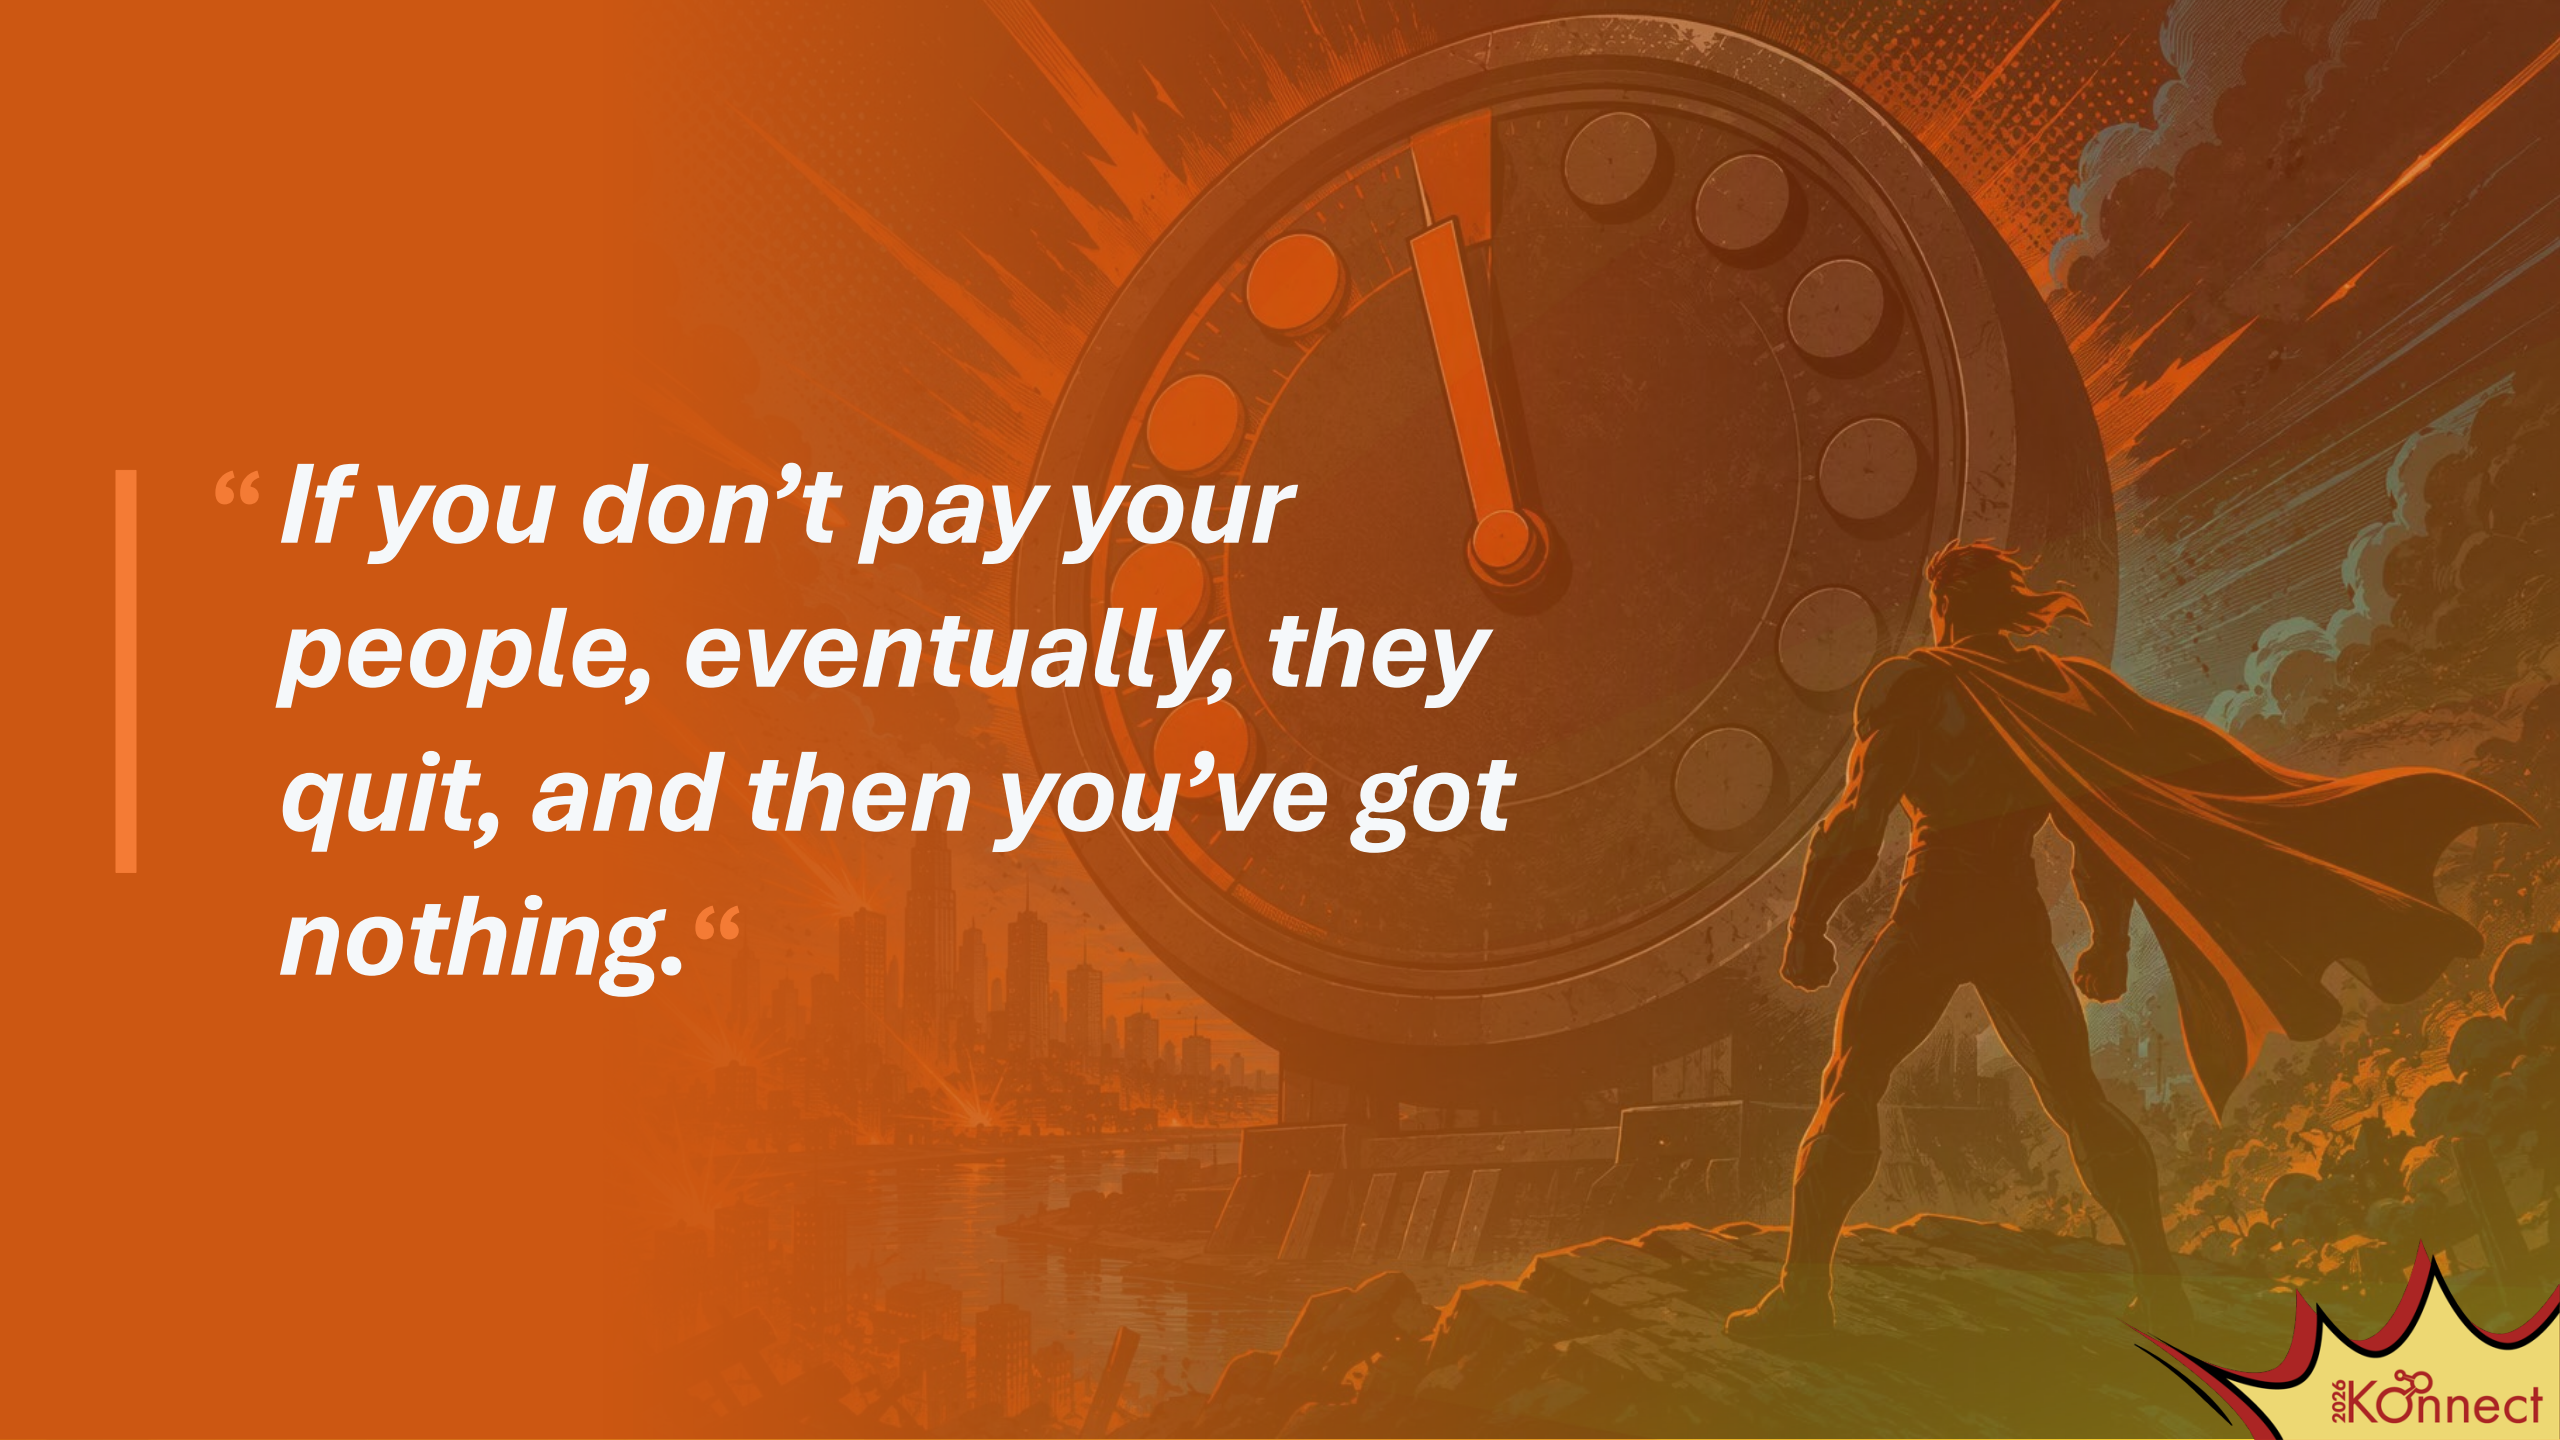

2026 KOnnect

Better systems should create leverage

A wider field of view. Earlier understanding. Faster coordinated action.

Our goal is to expand practitioner reach without adding more work.

“If you don’t pay your people, eventually, they quit, and then you’ve got nothing.“
2026 KOnnect

The foundation beneath the promise

ROBUST SYSTEMS OF RECORD

CONNECTED ENTERPRISE CONTEXT

RISK INTELLIGENCE

INTEGRATED SYSTEMS OF ACTION

TRUSTED OUTCOMES

Specialized disciplines stay specialized.
Shared context connects their consequences.

The risk operating model has changed.

Signals are accelerating	Risk is converging	AI is entering workflows	Risk must prove value
Continuous intelligence	Connected context	Governed orchestration	Outcome accountability
EARLY WARNING	DEEPER INSIGHT	RAPID RESPONSE	MAXIMUM IMPACT

RISK INTELLIGENCE

One connected system of record, signal, and action

2026 KOnnect

INTERNAL OPERATING SIGNALS

Incidents, Claims, Controls, KRIs
Audits, Supplier performance

EXTERNAL RISK SIGNALS

Regulatory change, Threat intelligence, Geopolitical events, Catastrophe data, Third-party

CONNECTED ENTERPRISE CONTEXT

Locations, Assets, Suppliers, Critical services, Policies, Financial exposure

ONE CONNECTED VIEW OF CONSEQUENCE

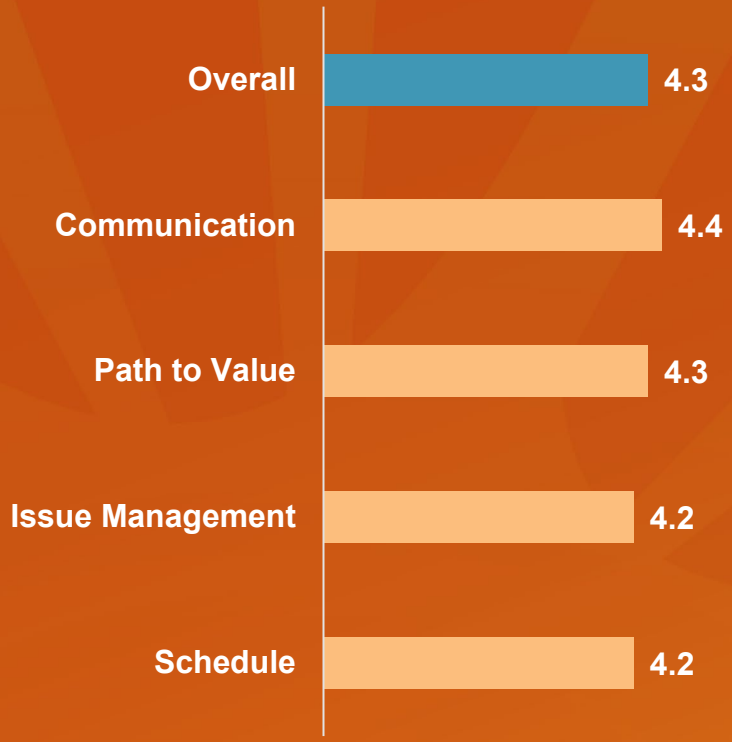

Riskonnect combines systems of record with connected context and risk signals without forcing every specialized discipline generic workflow.

RISK DOMAIN	CAPABILITIES	VALUE LEVERS	OUTCOME
Insurable Risk & Claims Optimization	• Claims & loss management • Exposure & program optimization • Predictive loss prevention • Incident tracking	• Earlier intervention reduces severity • Reduce claim frequency and leakage • Optimize insurance structure and retention • Improve reserve forecasting and negotiation	COST OPTIMIZATION MARGIN PROTECTION
Enterprise Risk & Strategic Decision Support	• Enterprise risk assessments • Risk appetite & tolerance • Scenario analysis • Strategic risk monitoring	• Prioritize highest-impact risks • Improve executive decision quality • Reduce decision latency	COST OPTIMIZATION OPERATIONAL EFFICIENCY MARGIN PROTECTION
Corporate Compliance & Policy Management	• Regulatory change management • Policy lifecycle management • Obligation management • Compliance attestation	• Reduce compliance violations • Reduce manual compliance effort • Increase policy adoption and accountability	RISK REDUCTION COST OPTIMIZATION
Technology, Cyber & AI Risk	• Technology risk assessments • Vulnerability management • AI governance • Security controls monitoring	• Identify technology exposures earlier • Reduce cyber-event likelihood and impact • Strengthen regulatory readiness	RISK REDUCTION COST OPTIMIZATION MARGIN PROTECTION
Third-Party Risk & Ecosystem Intelligence	• Third-party assessments • Continuous monitoring • Supplier intelligence • Concentration-risk analysis	• Identify third-party disruption earlier • Reduce supplier concentration exposure • Improve vendor oversight efficiency • Protect operations and revenue	COST OPTIMIZATION OPERATIONAL EFFICIENCY MARGIN PROTECTION
Internal Audit & Controls Assurance	• Audit planning • Testing & evidence collection • Issue management • Continuous controls monitoring	• Focus audit on highest-risk areas • Reduce evidence and remediation cycle time • Improve control reliability	RISK REDUCTION COST OPTIMIZATION OPERATIONAL EFFICIENCY
Business Continuity & Organizational Resilience	• Business impact analysis • Continuity planning • Crisis management • Operational resilience	• Accelerate response and recovery • Improve cross-functional coordination • Reduce operational and reputational impact	OPERATIONAL EFFICIENCY MARGIN PROTECTION RISK REDUCTION
