

Riskconnect's business continuity software helps you prepare for threats and minimize disruption to operations.

Instantly access dynamic business continuity plans. Manage business continuity and operational resilience from one centralized location that automates regular reviews and approvals.

Replace uncertainty with confidence. Identify hidden vulnerabilities and program gaps that could derail your response and recovery strategies.

Effectively respond to a disruption. Secure your response team in real time with live situation reporting, online plan activation, and timely communication.

Riskconnect has been a critical resource in helping us navigate the many challenges of business continuity management. Everyone at Riskconnect has been extremely knowledgeable and great to work with.

Steve Smith, Head of Group Security and Safety, Micro Focus

Product Highlights

BUSINESS CONTINUITY MANAGEMENT

Get a complete, automated planning experience in one platform to integrate business continuity into your everyday operations.

OPERATIONAL RESILIENCE

Strategically scope your program, establish impact tolerance, and create an end-to-end digital model of the organization to quickly achieve compliance and mitigate disruptions.

CRISIS MANAGEMENT

Centralize critical information flows during an incident to promptly secure your response team, activate response plans, and get stakeholders on the same page.

EMERGENCY NOTIFICATIONS

Communicate securely across the organization or within a team throughout a crisis or disruption.

ARTIFICIAL INTELLIGENCE

Generate business continuity plans with the power of AI.

BUSINESS CONTINUITY & RESILIENCE CONSULTING & MANAGED SERVICES

Tap into Riskconnect's expertise to develop a world-class program tailored to you.

BUSINESS CONTINUITY & RESILIENCE

Expose Hidden Vulnerabilities Before They Take You Down

Has business as usual lulled you into a false sense of security? Riskconnect's Business Continuity & Resilience software helps you cut through the noise to identify – and eliminate – hidden vulnerabilities.

- Create an end-to-end digital model of your organization to understand obligations, dependencies, and vulnerabilities.
- Identify plausible disruption scenarios and model the impact on important business services.
- Stress-test your plans against disruption scenarios to expose gaps in response and recovery methods.

Close the Gap Between Readiness and Response

When a crisis hits, who has time to dig through files to find the current response plan? Riskconnect's Business Continuity & Resilience software provides built-in crisis management and emergency notification tools, so you can confidently respond when it matters most.

- Instantly activate your response plans, track and manage tasks, and collaborate securely with encrypted chat.
- Drive emergency communications with embedded, enterprise-grade notification tools.
- Manage crisis coordination and emergency notifications straight from your mobile device.

Focus on Strategy, Not Paperwork

Does strategic thinking get edged out by entering data into spreadsheets and other administrative tasks? Riskconnect's Business Continuity & Resilience software automates your program and integrates business continuity into your everyday operations, giving you more time to tackle important strategic projects.

- Drive efficiency by leveraging a single, user-friendly system for operational resilience, business continuity, crisis management, and emergency notifications.
- Seamlessly share information and reduce human error by connecting to gold-source data repositories.
- Streamline administrative tasks with prebuilt functionality, workflows, and templates based on best practices.

Stay Ahead of Emerging Regulations

Struggling to keep your resilience plans up to date with new regulations? Riskconnect's Business Continuity & Resilience software helps you comply with ever-increasing regulatory requirements around preventing disruption and maintaining service continuity.

- Leverage out-of-the-box alignment with ISO 22301, including corrective actions and management reviews.
- Develop meaningful scorecards, dashboards, and reports that summarize key performance and risk indicators for internal and external stakeholders.
- Decrease disruption, increase readiness, and lower your risk to critical business operations, revenue, and brand.
