

## COVID-19 IMMUNIZATION TRACKER

### ARE YOU READY FOR NEW FEDERAL VACCINATION REQUIREMENTS?

As the pandemic rages on, tracking who is fully vaccinated, who is partially vaccinated, and who has opted for regular COVID-19 testing has become an essential part of keeping employees safe. Doing that efficiently, however, can be a big challenge. And with new federal regulations on the horizon, gathering this information in an organized, secure way has taken on new urgency.

### EASY AND SECURE TRACKING

Riskconnect's COVID-19 Immunization Tracker software compiles and tracks the vaccination and testing status of employees, visitors, and vendors. Individuals upload vaccine documentation via secure portal from any device with an internet connection. The software automatically sends alerts when it's time for a second shot, booster, or COVID-19 test.
