In The Next 30 Minutes

- RUSH & TRIPSS Overview
- Collaboration & Communication Strategy
- Review of RUSH's Rounding Program
- Initiatives Spotlight
- Questions

RUSH is a Chicago-based health system comprised of:

3 hospitals

1 specialty hospital

1 university

1 clinically integrated network

200+ outpatient care sites

QUALITY FOCUSED & DRIVEN

- RUMC was once again named as one of the nation's top performing hospitals by Vizient, ranking as No. 2 within the 2024 Quality and Accountability Study.
- RUMC also secured a spot on U.S. News & World Report's prestigious Best Hospitals Honor Roll for the fifth straight year, tying for No. 1 as the top hospital in Illinois.
- All three hospitals have received Magnet designation; RUMC has held this designation for 8 years as of 2023.

RUSH's Problem Statement

Pain Points in RUSH's Prior Risk Processes

SILOS ACROSS OUR OPERATIONS, PROCESSES, AND SYSTEMS

MANUAL PROCESSES DETRACT FROM VALUE GENERATION

VALUABLE METRICS AND INSIGHTS TRACKED IN ISOLATION

LIMITED USAGE OF DATA STORY TELLING & DECISION MAKING

Key Initiatives To Realize Value

VALUE DRIVER		INITIATIVES
	PATIENT SAFETY	Committee Event Reviews, Daily Safety Briefing, Leader Center, Service Views, Harm Closure, Safety Rounding
	PATIENT EXPERIENCE	Comprehensive Rounding Program
	PROVIDER QUALITY	OPPE Indicator Integration, Provider Risk Rating
	LITIGATION MANAGEMENT	Occurrences Management, Claims Forecasting, Quarterly Review
	INSIGHTS INTEGRATION	Rate Based Reporting, Departmental Risk Scorecards, Process Systemization & Standardization

Patient Rounding

RUSH's Comprehensive Rounding Program

A decorative graphic consisting of several bright blue, glowing light trails that swirl and curve across the lower right portion of the slide. The trails originate from a central bright point and radiate outwards, creating a sense of motion and energy.

Prior Operating State

Purposeful rounding to identify and address safety and experience concerns during an admission.

- Between hospitals, rounding workflows were siloed with varied approaches, interventions and outcomes.
- Rounding strategies were returning inconsistent value to downstream clinical / operational teams.
- Gather and analyzing system level data was impossible given disparate data sets and processes.

RUMC

Utilized digital solution with real-time issue alerts for issues and automated rounding coverage and issue SLA reports Successfully improved experience scores yet cost prohibitive for continued system rollout.

ROPH

Purposed paper-based checklist to identify issues. No reporting / tracking mechanism available, and issue resolution required manual intervention. Seeking to improve key experience metrics.

RCMC

Using non-standardized rounding solution and workflows leading to duplicative tool costs. Limited reporting functionality and visibility with no issue assignment automation.

Future State Ask

Standardized rounding process coupled with an advanced, centralized patient experience data set.

- Achieve greater rounding quality insights through round status, long stays, advanced reporting.
- Empower support service functions with work queues, SLA tracking, and downstream tool integrations.
- Address patient experience challenges at community site hospitals and improve CMS Star performance.

ROUNDING PLATFORM JOURNEY

- Address immediate need and collect baseline data
- Pilot to refine user experience before main campus rollout
- Prioritize mobile experience to aid in user adoption

- Offboard and scale beyond prior solution, realize savings.
- Create standardization across department rounding workflows.
- Create one-stop-shop for leadership (SE, Round, etc.),

HERE TODAY

- Rollout advanced dashboards and insights tracking.
- Analyze data sets for trends and reset priorities / metric targets.
- Complete system rollout with onboarding of Rush Copley.

WHAT FOLLOWS...

Is a visual depiction of our current workflow for **Purposeful Inpatient Nurse Leader Rounding**. Our program also supports the following rounding workflows:

FNS LEADER | EVS LEADER | EVS ROOM AUDITS

ED WAITING ROOM | ED TREATMENT ROOM | FALL RISK

Successes & Challenges

Successes

- ✓ Launched 7 rounding workflows across 2 sites, and 6 care departments
- ✓ Increased staff efficiency by automating issue routing and assignment
- ✓ Introduced alerts to share patient compliments direct to front-line staff
- ✓ Improved reporting insights for proactive management of key experience drivers
- ✓ Optimized cross-functional collaboration with real-time loop closure via single interface
- ✓ Achieved strong leadership buy-in and user adoption

Lessons Learned

- 💡 Exploring how best to evaluate the value of a round, ensuring it's purposeful
- 💡 Tailoring what data is surfaced to the attention of a user – right data, right time

Facing Challenges

- ⚠️ Managing the growing demands from operations for new rounding programs
- ⚠️ Need for more configurability to aid in the onboarding of future rounding programs
- ⚠️ Continued optimization of the user experience to decrease the end-to-end time spent logging a round

Initiative Spotlights

Daily Safety Briefing &
Layered Committee Event Reviews

Daily Safety Briefing

AGENDA: a daily leadership level look back, look ahead, and follow up report.

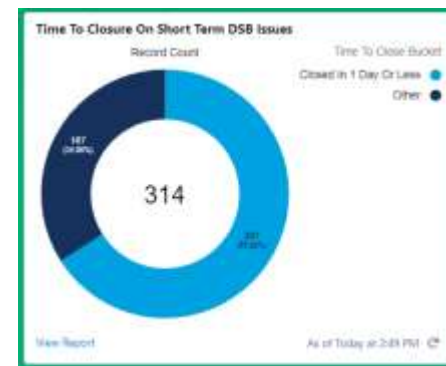

Report outs inventoried within TRIPSS to track:

1. Key safety metrics
2. Issue resolution
3. Report out compliance
4. Trends over time

Daily work reports are sent house-wide to create transparency and accountability.

DSB Meeting: 11/10/2022

REPORTING DEPARTMENT	SAFETY EVENTS & ANNOUNCEMENTS GOOD CATCHES	
Hospitalist/Intensivist		
Bed and Care Management		
Medicine, Behavioral and Emergency Services		
Inpatient Surgical and Women and Children	Following up internally on a fall with no injury on 14W	

RUSH Daily Safety Briefing Meeting Minutes

Date: 7/18/2022 Time: (AM) 8:30 Leader: Dale Grandic

Short-Term Issues	Responsible	Outcome	Date Reported
Long-Term Issues	Responsible	Date Reported	Due Date
Safety Events, Announcements and Good Catches			

Layered Committee Event Reviews

1 Review Collaboration

Once a second review is launched on a single event the committee reviewers collaborate on a single review response.

2 Review Peek-Thrus

Committee reviewers can see details pertaining to tasks, basic reviews, and CAPAs when completing their review.

3 Hand-Off Processes

Committees can send event review requests to other committees asking that they consider a review of the event.
