Healthcare Roadmap

Near Term – 6 months Mid Term – 6 to 12 months Long Term – 12 to 24 months

-  **Digital Experience Event Reporting Enhancements**
 - Improve the user experience and decrease the time to implement/modify the event portal
-  **Predictive Event Severity**
 - Identify adverse events with a greater risk to take immediate action reducing the risk to the organization
-  **Predictive Event Classification**
 - Based on the event description, predict the type of event to enhance the event reporting experience
-  **Sentiment Analysis of General Feedback**
 - Enable risk-mitigation, decision making through expressed patient/Visitor feedback

-  **Pre-Populate Event Location**
 - Improve the reporter experience by pre-populating the event location based on the patient involved in the event
-  **User Proxy Solution**
 - Streamline the assignment of events to ensure timely investigations
-  **Automated Duplicate Event Detection**
 - Reduce duplication of event management while retaining all important event data
-  **Platform Reporting Enhancements**
 - Integrate event data into a single repository to enhance platform analytics

-  **Patient Rounding**
 - Ensuring exceptional care and communication in real-time
-  **Accreditation Enhancements**
 - Optimize survey checklist correlations with accreditation regulations through AI-driven analysis
-  **OPPE Data Source Integration**
 - Automate data integration from external sources, streamlining performance data
-  **Regulatory Compliance/Policy Management Combined with Event Management**
 - Utilize AI technology to deliver comprehensive insights, offering actionable guidance for patient safety and quality initiatives

What's Next Event Reporter Experience

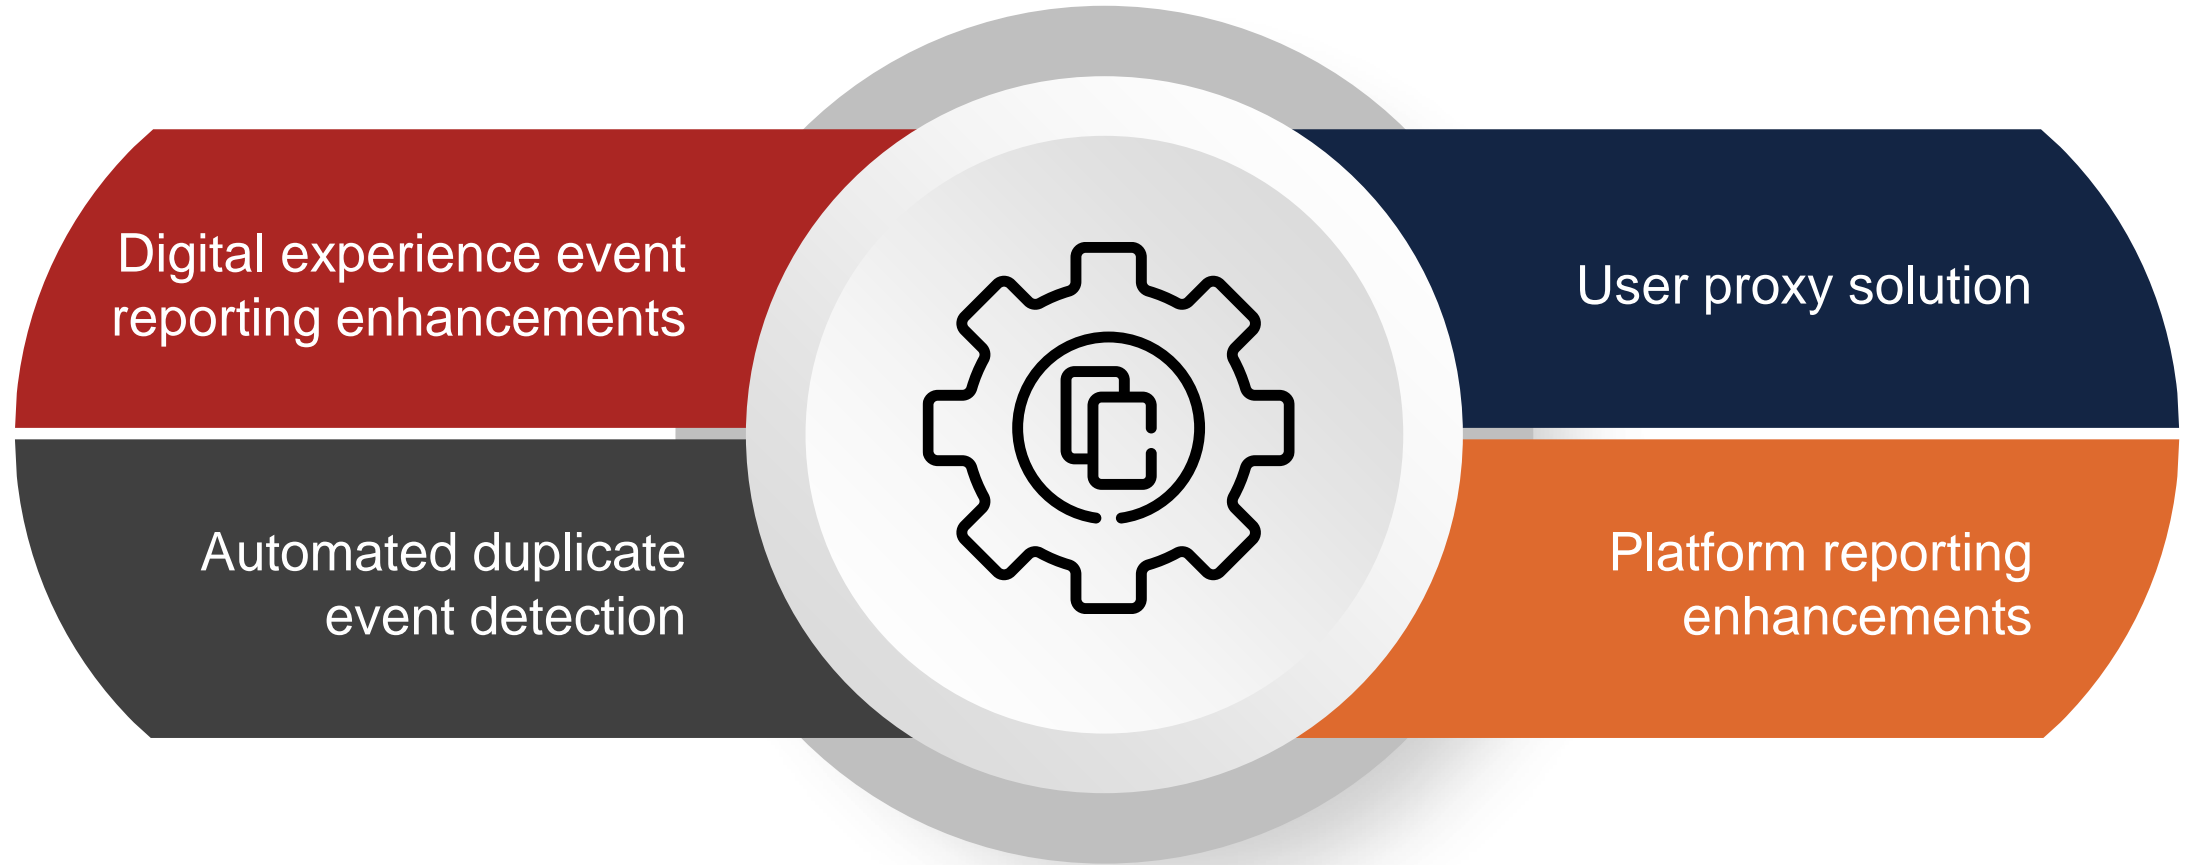

Enhance the event reporter experience and gain efficiencies within your risk mitigation actions through new technologies

What's Next

Standardize Processes and Workflows

What's Next Integrations
