

**Riskconnect's ESG software simplifies ESG data collection, analysis, and reporting across your organization and supply chain.**

**Centralize your ESG data.** Collect investor-grade information from sites and suppliers to identify regulatory, physical, and continuity risk exposures.

**Manage regulatory compliance obligations with ease.** Align with up-to-date reporting requirements for frameworks and regulations, such as SASB, ERS (CSRD), and UN SDGs to facilitate disclosures.

**Know your ESG risks in your supply chain.** Monitor your operations to detect and eliminate risks with real-time insights, alerts, and controls.

## Product Highlights

### AUDIT MANAGEMENT

Manage supplier audits and site inspections with integrated corrective and preventative actions management (CAPA) and reporting.

### GHG EMISSIONS CALCULATIONS

Capture data, determine emissions, and manage the carbon footprint of your operations and supply chains.

### MATERIALITY ASSESSMENTS

Identify ESG issues that are most important to your organization to guide program development.

### PROGRAM MANAGEMENT

Define objectives and capture disclosure details in context of regulatory and framework requirements.

### DASHBOARDS & ANALYTICS

Use intuitive dashboard design tools backed by powerful analytics to provide insights and collaboration for better decisions around your ESG performance data.

### Make ESG Reporting Easy

Intimidated by the sheer volume of data, people, and systems needed to create ESG reports? Riskconnect's ESG software automatically captures data in line with ESG reporting standards, disclosure requirements, and frameworks.

- Collect investor-grade data from your sites and suppliers.
- Track ESG risks and performance.
- Streamline reporting operations with ESG standards-based data-collection forms.

### Get Better Visibility into Your Supply Chain

Are your suppliers exposing you to unexpected ESG risks? Riskconnect's ESG software provides real-time visibility into ESG risks across your network of supply-chain partners to prevent unwanted surprises.

- Map supplier relationships and connected risks.
- Identify regulatory, physical, and continuity risk exposures in your supply base.
- Monitor risk with real-time alerts based on configurable thresholds.
- Increase compliance in your supply base and optimize performance with benchmarking and peer comparisons.

### Tell Your ESG Story with Credibility

Can you meet stakeholder demands – from investors, customers, employees, and more – for ESG transparency and accountability? Riskconnect's ESG software pulls together all relevant information from wherever it currently resides into a cohesive ESG narrative that aligns with your values and strategy, as well as industry practices.

- Centralize all your ESG initiatives in one place.
- Detect and manage ESG risk with guidance, integrated analytics, and customizable scoring.
- Communicate transparently with stakeholders on your ESG performance and progress.
