

## IT Risk Management + Third-Party Risk Management

Riskconnect’s IT Risk Management and Third-Party Risk Management software together help you identify, assess, and control cyber risks across IT systems and third-party partners.

**Unify your cyber risk management vision.** Bring IT and third-party risk management together into a single program that provides full visibility and control over your cyber risk landscape.

**Turn AI risks into opportunities.** Proactively manage the risks from AI and vendor relationships to capitalize on growth opportunities while staying ahead of emerging regulations.

**Innovate with speed and security.** Make smarter, faster decisions about partners and technologies while protecting your infrastructure and maintaining a resilient security posture.

IT Risk Management	Benefit of Connection	Third-Party Risk Management
Excels at identifying gaps in internal controls tied to critical systems.	<b>An accurate and complete view of cyber risk exposure</b>	Excels at evaluating third parties based on access, criticality, and business impact.
Speeds investigation of incidents tied to internal assets and controls.	<b>Faster triage for incidents connected to third-party relationships</b>	Maps vendors to systems and services.
Tracks controls, access, and remediation for IT risks.	<b>Standardized cyber risk governance</b>	Tracks vendor performance and upholds accountability.

# IT RISK MANAGEMENT + THIRD-PARTY RISK MANAGEMENT

## CLOSE BLIND SPOTS BEFORE THEY CAUSE DAMAGE

- Map vendor access to critical IT systems and services.
- Link risks, incidents, and controls across internal and third-party relationships.
- Identify dependencies that could weaken your response or recovery to cyber incidents.

## MOVE FASTER WITH SHARED VISIBILITY

- Centralize supplier intake, reviews, workflows, and the relationship to all cyber risk-related activities.
- Get insights quickly with automated risk scoring and clear ownership of risks and follow-up actions.
- Prioritize risks based on system criticality, vendor exposure, and business impact.

## STRENGTHEN RESILIENCE AND ACCOUNTABILITY

- Unify third-party and IT risk under shared governance and metrics.
- Track vendor performance and control adherence throughout the relationship.
- Prepare for audits, board updates, and disruptions with confidence.
