

INSURABLE RISK

Health & Safety

Riskconnect's Health & Safety software helps you systematically improve safety, reduce future incidents, and cultivate greater safety awareness within your organization.

Keep employees safe. Spend less time figuring out what the problem is and more time solving it.

Stay ahead of the curve. Spot early warning signs, monitor trends, and manage incidents that turn into claims all from one place.

Simplify compliance. Tap into preloaded protocols and automatic data transfers to regulators for worry-free compliance.

Riskconnect is one of our most important tools for evaluating hazards, identifying trends, and tracking how effective our mitigations are over time.

Get in Front of Issues Before They Become Claims

Are employees in jeopardy because you can't put the pieces together quickly enough? Riskconnect's Health & Safety software seamlessly integrates data from training, incidents, safety audits, regulatory requirements, and more to give you a clear, up-to-the-minute picture of your safety programs.

- Consolidate real-time health and safety data from multiple internal and external sources to identify trends and opportunities for improvement.
- Expedite the incident-intake process using intuitive, dynamic, survey-style questionnaires.
- Improve accuracy and eliminate duplicate entry through automatic data validation.
- Apply root cause analysis, recommend corrective actions, and keep track of completed steps to prevent future hazards.
- Identify safety program gaps, monitor sites, analyze missed questions, and strengthen performance overall.

Communicate Effortlessly from the Frontline on Up

How long does it take to inform all the right people about a safety issue? Riskconnect's Health & Safety software records data right at the source to quickly get accurate, real-time information to those who can investigate, evaluate, and act.

- Gain instant visibility into field operations to act on results.
- Proactively manage safety programs, track outstanding audits, and quickly correct risks.
- Generate actionable insights by tracking incident KPIs, trends, injury metrics, and workplace demographics.
- Quickly assign tasks to the right resources and automatically send notifications when deadlines are missed.
- Speed up response time with real-time access to critical information from the moment something happens.

Never Worry About Noncompliance

Does the thought of misplaced documentation, a missed deadline, or steep regulatory penalties keep you up at night? Riskconnect's Health & Safety software consolidates all safety-related activities in one place for easy tracking, so you never miss a compliance deadline.

- Adhere to important standards and regulations – including OSHA – with a central repository of health and safety data.
- See outstanding action items, approaching due dates, and expected costs.
- Track and report on OSHA-recordable workplace incidents.
- Eliminate spreadsheets and paper-based record management with seamless OSHA submission.
- Automatically distribute reports to key stakeholders and regulators.

Start anywhere. Expand everywhere.

Riskconnect is the leading provider of software that brings risk under one roof. The technology empowers organizations to anticipate, manage, and respond in real time to strategic and operational risks across the extended enterprise.

More than 2,700 customers across six continents partner with Riskconnect to gain previously unattainable insights that deliver better business outcomes. Riskconnect has more than 1,500 risk management experts in the Americas, Europe, and Asia-Pacific.
