

Riskconnect for the Healthcare Industry

Riskconnect integrates patient safety, claims, compliance, and risk management to deliver better outcomes.

Riskconnect's healthcare software allows you to seamlessly manage all of your safety and risk management initiatives from one place. The software tracks and manages everything related to patient safety, experience, provider quality, compliance, third-party suppliers, and enterprise risk. Complete and accurate information is all in one place where it can be easily shared across disciplines so issues can be quickly and effectively addressed.

“Riskconnect was an absolute standout in terms of the systems that we reviewed. It was most important that we could have adequate reporting and the ability to configure the solution to be right for our board and leadership team. Riskconnect was able to deliver both.”

Alison Cameron, Head of Risk and Insurance, HammondCare

Find Every Detail at Your Fingertips

Instantly know where you stand with any strategic or operational risk across the organisation.

Focus on Action, Not Administration

Capture critical safety data quickly, consistently, and accurately.

Minimise Risk, Maximise Outcomes

Make intelligent risk decisions with built-in AI-based tools, automatic notifications, and point-and-click reporting.

The Riskconnect healthcare community includes:

240+

healthcare customers worldwide

1,200

acute-care hospitals

11

leading national and regional aged-care organisations in Australia

Riskconnect for the Healthcare Industry

Every Riskconnect Healthcare solution is powerful on its own, but the real magic happens when you use them together.

PATIENT SAFETY

Capture patient, visitor, and employee event data right at the source to quickly and accurately get information to those who can investigate, evaluate, and take preventative action to improve patient outcomes.

PROVIDER QUALITY MANAGEMENT

Track and manage the end-to-end performance-review process for healthcare service providers, including compliance with accreditation requirements.

ENTERPRISE RISK MANAGEMENT

Combine insurable and noninsurable risks so you can anticipate, assess, mitigate, and monitor every threat from every corner of the organisation.

COMPLIANCE

Aggregate all corporate and legal policies, procedures, and requirements from across the organisation into one centralised location.

THIRD-PARTY RISK MANAGEMENT

Collect all of your vendor information – including agreements, contracts, policies, and access credentials – into one place to efficiently monitor third-party suppliers throughout the entire relationship.

RISK & INSURANCE

Seamlessly consolidate data from multiple sources, automate routine processes, and use AI-based predictive analytics to turn complicated information into actionable intelligence.

RISK ANALYTICS AND INSIGHTS

Easily customise your reporting and dashboards to tell your story and inform decisions.

About Riskconnect
