

Riskconnect for the Healthcare Industry

Riskconnect integrates experience, claims, compliance, and risk management to deliver better outcomes.

Riskconnect's healthcare software allows you to seamlessly manage all of your safety and risk management initiatives from one place. The software tracks and manages everything related to patient safety, experience, provider quality, compliance, third-party suppliers, and enterprise risk. Complete and accurate information is all in one place where it can be easily shared across disciplines so issues can be quickly and effectively addressed.

Riskconnect has helped us exponentially. We don't have to use paper forms anymore, which has obviously increased reporting because no one wants to print out a form and fill it out and hand it directly to the risk manager. We actually can use our data to improve things at our clinic. People are engaged. Patients are safer now. And our employees are safer.

Katie McKinley, Senior Clinical Risk Services Manager for UNT Health Science Center's clinical practice, HSC Health

Find Every Detail at Your Fingertips

Instantly know where you stand with any strategic or operational risk across the organization.

Focus on Action, Not Administration

Capture critical safety data quickly, consistently, and accurately.

Make intelligent decisions with built-in collaboration tools, automatic notifications, and point-and-click reporting.

The Riskconnect healthcare community includes:

8 of the 12

largest health systems in the U.S.

1,200

acute-care hospitals

130+

healthcare customers

Riskconnect for the Healthcare Industry

Every Riskconnect Healthcare solution is powerful on its own, but the real magic happens when you use them together.

RISK & INSURANCE

Seamlessly consolidate data from multiple sources, automate routine processes, and use sophisticated analytics to turn complicated information into actionable intelligence.

COMPLIANCE

Aggregate all corporate and legal policies, procedures, and requirements from across the organization into one centralized location.

ENTERPRISE RISK MANAGEMENT

Combine insurable and noninsurable risks so you can anticipate, assess, mitigate, and monitor every threat from every corner of the organization.

PATIENT SAFETY

Capture patient, visitor, and employee event data right at the source to quickly and accurately get information to those who can investigate, evaluate, and take action to improve patient outcomes.

PROVIDER QUALITY MANAGEMENT

Track and manage the end-to-end performance-review process for healthcare providers, including compliance with accreditation requirements.

THIRD-PARTY RISK MANAGEMENT

Collect all of your vendor information – including agreements, contracts, policies, and access credentials – into one place to efficiently monitor third-party suppliers throughout the entire relationship

RISK ANALYTICS AND INSIGHTS

Easily customize your reporting and dashboards to tell your story and inform decisions.
