

LONG-TERM CARE EVENT REPORTING

NEED MORE FACTS ABOUT SAFETY EVENTS?

Making event reporting easy is critical for improving the safety of residents, caregivers, and visitors. After all, you can only fix what you know about. But collecting event details is only half the battle.

For this information to truly make a difference, you have to be able to translate the data into a plan of action.

STREAMLINE THE INCIDENT REPORTING PROCESS

Riskconnect's Long-Term Care Event Reporting software captures complete and accurate information with intuitive and accessible forms – and alerts the right people so issues can be swiftly addressed.

The software records safety events, near misses, and unsafe conditions with an intuitive, icon-driven portal. It facilitates communication and collaboration among staff, safety, quality, risk management, and compliance. And it transforms data into meaningful, visual reports for faster action.

Increase event reporting rates.

Facilitate reporting among all caregivers.

Get the data to respond faster.

LONG-TERM CARE EVENT REPORTING FOR HEALTHCARE ORGANIZATIONS

INCREASES EVENT REPORTING RATES

- Simplifies safety-event reporting with an icon-driven portal, survey-style questionnaires, and dictation capabilities.
- Accommodates anonymous reporting, identified reporting, or a combination of both.
- Improves accuracy and eliminates duplicate entry through automatic data validation.

IMPROVES EFFICIENCY

- Streamlines and automates workflows specific to long-term care facilities.
- Automatically sends notifications and task assignments, plus reminders and escalation.
- Attaches images and important documentation directly to the event record.

FACILITATES ACTION

- Offers customizable templates and dashboards to make data understandable and actionable.
- Helps staff feel more engaged by closing the feedback loop.
- Seamlessly integrates with Peer Review, Claims Administration, Root Cause Analysis, and other Riskonnect software to manage the complete incident lifecycle.
