

## PROVIDER QUALITY MANAGEMENT

### DO YOU SPEND MORE TIME MANAGING THE PROVIDER QUALITY-MANAGEMENT PROCESS THAN ON ACTUALLY IMPROVING THE QUALITY OF CARE?

Monitoring and managing the quality of clinical staff performance is a critical function for healthcare provider organizations, whether that's to comply with externally mandated requirements or with internally set standards. The problem is that it's all too easy to get so caught up in complicated, cumbersome administration processes like aggregating data from multiple sources that you lose sight of what really matters – improving outcomes.

### CONSISTENT & COMPREHENSIVE PROVIDER QUALITY MANAGEMENT

Riskconnect's Provider Quality Management software tracks and manages the end-to-end performance-review process for healthcare providers. The software facilitates the compliance process for accreditation requirements, such as Ongoing Professional Practice Evaluation (OPPE) and Focused Professional Practice Evaluation (FPPE). It also adds consistency and clarity to internal processes for monitoring and improving provider quality.

**Consistently and accurately evaluate provider performance.**

**Centralize and standardize provider performance data.**

**Painlessly comply with accreditation standards.**

# PROVIDER QUALITY MANAGEMENT FOR HEALTHCARE ORGANIZATIONS

## STREAMLINED WORKFLOWS

- Initiates case review with automated, customizable triggers.
- Applies consistent methodology to chart review, external peer review, proctoring, and more.
- Shows progress bar for each review.

## SEARCHABLE ACCESS

- Attaches all relevant documents, files, and images directly to the record.
- Searches by event, privilege, or staff member.
- Provides direct access to case review history for better context.

## EASY COLLABORATION

- Facilitates communication between medical staff, quality, and leadership.
- Minimizes the need for IT support.
- Improves transparency among staff.
- Protects your organization by ensuring cases are consistently evaluated across the board.
- Seamlessly integrates with Patient Safety Event Reporting, Patient Experience, and other Riskconnect software to manage the complete incident lifecycle.
