

# Riskconnect for the **LIFE SCIENCES INDUSTRY**

Riskconnect software helps you manage the risks that disrupt clinical trials, delay treatments, trigger regulatory action, and jeopardize patient safety.

**Stay audit ready.** Track complex regulatory requirements from the FDA, EMA, and other agencies in one system to maintain a clear audit trail and respond to inquiries without scrambling.

**Protect trials, labs, and patient care from disruption.** Connect risks across sites, suppliers, and clinical partners to catch issues before they delay studies, halt production, or affect patients.

**Optimize insurance.** Centralize values collection, certificates of insurance, and exposure data so renewals are faster, premiums are accurate, and clinical trials are covered.

## Improve Outcomes

Fewer manual tasks lower administrative costs, improve response times, and provide more timely and accurate data to prioritize actions.

Riskconnect automates time-intensive workflows and layers in AI intelligence to help you manage interconnected risks across locations, clinical trials, lab operations, and patient care to boost operational agility, strengthen third-party relationships, and speed lifesaving treatments to the market.

## Eliminate Blind Spots

Even the slightest unknown has the potential to cause outsized damage to operations, reputation, and the bottom line.

Riskconnect gives you enterprise-wide risk visibility, instant access to dynamic business continuity plans, and proactive threat monitoring for faster, fact-based decisions.

## Simplify Compliance

Maintaining compliance with an intricate web of global regulations for privacy, safety, reporting, and more is a tall order – with steep consequences for noncompliance.

Riskconnect has built-in tools to help you stay on top of complex regulatory requirements, automate documentation and reporting, safeguard sensitive data, and protect patient health.
