

Riskconnect for the **MANUFACTURING** **INDUSTRY**

Riskconnect software helps you get in front of risk to maintain production, improve workplace safety, and optimize your total cost of risk.

Identify third-party vulnerabilities. Know the details about a supplier's level of risk to minimize your exposure.

Keep employees safe. Spot early warning signs, track incidents that turn into claims, and manage complex labor regulations from one place.

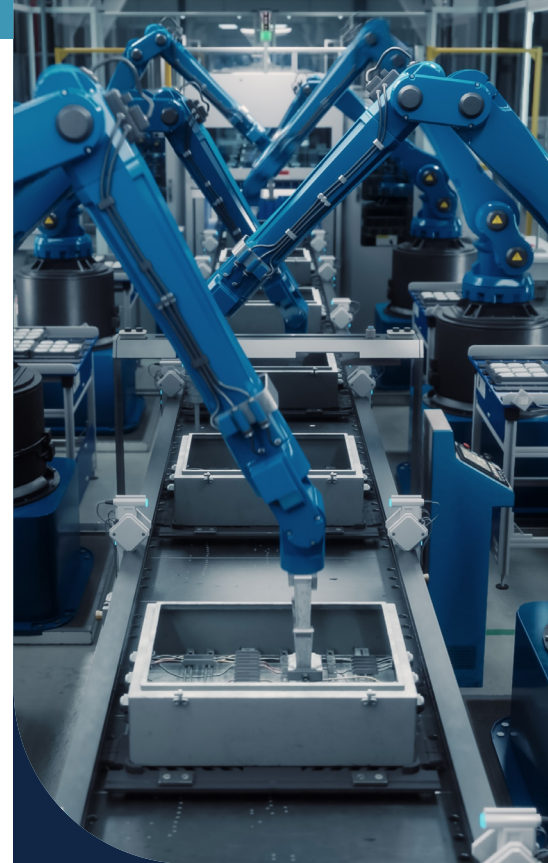

Stop cascading effects fast. See how risks correlate to quickly halt downstream effects that can wreak havoc on operations, logistics, and your brand to keep the business running under even the most challenging conditions.

Riskconnect has helped us bring all of the pieces of the puzzle together to give us that holistic view of risk.

And we are closer than we have ever been before to understanding our total cost of risk and what that all entails.

Maintain a Safe Work Environment

Minimizing workplace injuries not only keeps employees healthy, but it also reduces costs from claims, regulatory violations, and labor.

Riskconnect can help you quickly respond to incidents, efficiently manage claims, reduce preventable accidents, and easily comply with regulatory reporting requirements.

Eliminate Transparency

Even a single data breach or minor disruption in the supply chain can trigger production shutdowns, regulatory scrutiny, and long-term reputational damage.

Riskconnect gives you a clear picture of IT, cyber, and third-party risks with centralized documentation, customized assessments, and consistent risk scoring to help you get in front of vulnerabilities.

Pivot Quickly to Changing Conditions

Disruptions of any kind – to production, supply chains, IT systems – can cause crippling damage that compounds over time.

Riskconnect can help you manage interconnected risks with end-to-end visibility to strengthen operational agility, boost resilience, and protect your margins.
