

From Portfolio Decisions to Project Risk: One Connected View

Riskconnect’s Portfolio and Program Management and Active Risk Manager solutions connect portfolio governance with delivery risk across projects, programs, and portfolios, helping PMOs and delivery leaders across the organization prioritize the right initiatives, standardize execution, and improve forecasting before risks become cost overruns or schedule delays.

Align investments to outcomes. Ensure projects and programs are prioritized and funded based on strategic mandate, business value, and delivery feasibility.

Govern delivery with confidence. Standardize artifacts, approvals, stage gates, and reporting, so leaders can make decisions with consistent visibility.

Identify and manage uncertainty. Apply advanced risk analysis to the projects that matter most, including quantitative and schedule risk methods, to prevent surprises.

Portfolio and Program Management	Benefit of Connection	Active Risk Manager
Delivers portfolio, program, and project governance tied to strategic objectives and business outcomes	One integrated view of delivery and risk to prioritize investments, govern execution, and manage uncertainty end to end	Identifies and manages delivery risk across projects, programs, and portfolios with deeper tooling, modeling, and analysis to safeguard against cost and schedule overruns
Offers standardized workflows, sign-offs, and artifacts: business cases, status reports, change requests, stage gates	Governance decisions informed by delivery reality, so approvals, changes, and tradeoffs reflect true exposure	Strengthens delivery assurance with quantitative methods and structured risk management to reduce surprises
Enables portfolio-level reporting across health indicators, performance, and delivery oversight	Enterprise-level visibility across programs with consolidated reporting for PMO/ELT and risk stakeholders	Aggregates and communicates delivery exposure to improve forecast confidence and enable proactive mitigation across major initiatives

PORTFOLIO & PROGRAM MANAGEMENT + ACTIVE RISK MANAGER

GET AN INTEGRATED VIEW OF DELIVERY, GOVERNANCE, AND RISK

- Connect portfolio oversight and project risk in one view to reduce fragmentation.
- Establish consistent governance with status reporting, health checks, stage gates, and approvals.
- Deliver consistent visibility to leadership with portfolio reporting informed by risk exposure.

STANDARDIZE PORTFOLIO GOVERNANCE AT SCALE

- Streamline portfolio workflows for approvals, stage gates, and change control to reduce inconsistency.
- Align delivery governance across teams and programs without relying on spreadsheets and side processes.
- Improve decision velocity by surfacing what needs action, who owns it, and what's at risk.

IMPROVE FORECAST ACCURACY AND PREVENT DELIVERY SURPRISES

- Centralize project data in one repository by connecting PPM with schedulers and financial/ERP systems.
- Strengthen risk management for major programs with deeper schedule and cost risk insight, even when schedules are high-level or phased.
- Quantify schedule and cost uncertainty to understand the likelihood of delays and overruns before they hit delivery.
- Use Schedule Risk Analysis to identify the activities that drive slippage, so mitigation is targeted early.
