

Make decisions with confidence. Understand each risk, how that risk relates to others, and what it means for the decisions you have to make.

Tell your story with unparalleled insight. Know your key risk metrics and use those to tell your story to the rest of the organization.

Collaborate with others. Work with other risk owners using shared views to decide together on the best actions.

Riskconnect puts all risk under one roof to help you manage risk and compliance across your organization – and beyond.

CONNECT THE DOTS FOR AN UNPRECEDENTED VIEW OF RISK

With Riskconnect, you'll know just how at risk you are – and where to prioritize your time.

A PLATFORM EVERYONE LOVES

Users love its familiar interface, procurement loves its scalability, and IT loves its built-in security. And that translates into faster time to value for everyone.

A PARTNERSHIP BUILT ON TRUST

Our dedication to forging long-term partnerships with customers is one reason why more organizations choose Riskconnect than any other vendor as their preferred integrated risk management software provider.

Start Anywhere, Go Everywhere

Every Riskconnect product is powerful on its own, but the real magic happens when you use them together.

Risk Management Information System

Seamlessly consolidate data from multiple sources, automate routine processes, and use sophisticated analytics to turn complicated information into actionable intelligence.

Claims Administration

Integrate people, systems, and claims data, and automate routine processes, so you can focus on resolving even the most complex claims quickly, easily, and fairly.

Third-Party Risk Management

Collect all of your vendor information – including agreements, contracts, policies, and access credentials – into one place to efficiently monitor vendors throughout the entire relationship.

Enterprise Risk Management

Combine insurable and noninsurable risks so you can anticipate, assess, mitigate, and monitor every threat from every corner of the organization.

Internal Audit

Manage every aspect of complex audit procedures in one secure, accessible place.

Policy Management

Simplify the administration of corporate policies and procedures.

Compliance

Aggregate all corporate and legal policies, procedures, and requirements from across the organization into one centralized location.

Project Risk Management

Effectively manage risk to complete projects on time and on budget.

Business Continuity & Resilience

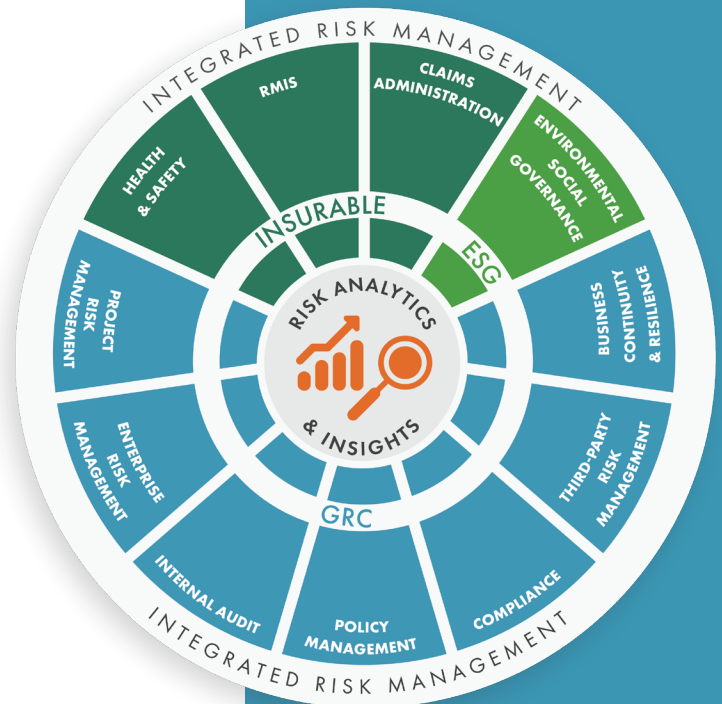

Prepare for threats and minimize disruption to operations.

Environmental, Social & Governance

Simplify ESG data collection, analysis, and reporting across your organization and supply chain.

Health & Safety

Track all safety processes, training status, compliance requirements, hazard data, and incidents.
