

Riskconnect's RMIS gives you the data, analytics, and insight to turn risk into a strategic advantage.

Focus your time where you can make a difference. Spend less time chasing down data and more time analyzing what it means.

Communicate effortlessly from the frontlines to the C-suite. Break down silos and seamlessly share always up-to-date risk data across the organization.

Make decisions with confidence. Turn complicated data into easily actionable information that you can trust.

“Riskconnect has allowed us to embark on actions we’ve never had clarity on before. If no action is coming out of the data, what’s the point.”

Trey Braden, Director, Risk Management, Randstad

Product Highlights

CERTIFICATE MANAGEMENT

Streamline tracking and management of incoming certificates of insurance to reduce exposure from contractors, tenants, suppliers, and other business partners.

COST ALLOCATIONS

Accurately allocate premiums and fees based on your actual experience and methodology.

INSURANCE MANAGEMENT

Track and manage all of your insurance policies and features, including premiums, layers, limits, deductibles, carriers, and more.

RISK ANALYTICS & INSIGHTS

Easily customize your reporting and dashboards to tell your story and inform decisions.

CLAIMS ADMINISTRATION

Take charge of the entire claims process, from first notice to adjudication, payment, and subrogation.

ENVIRONMENT, HEALTH & SAFETY

Identify risks, ensure compliance, and evaluate the effectiveness of your EHS program.

RENEWAL MANAGEMENT

Streamline insurance policy renewal by automatically collecting, consolidating, and analyzing risk and exposure data.

WORKFLOW MANAGEMENT

Automate routine tasks, notifications, and alerts using configurable data-entry screens, rules, and forms.

CLAIMS REGULATORY COMPLIANCE

Stay ahead of current and potential regulation, manage relationships with external entities, and automatically execute documentation to ensure you comply with important regulations.

EXPOSURE MANAGEMENT

Automate values collection, track submitted values in real time, and see important year-over-year changes.

ROOT CAUSE ANALYSIS

Quickly identify underlying issues so safety measures can be taken in time to prevent future risk.

Reduce Costs AND Increase Profitability

Feeling the pressure to correctly anticipate what's ahead – in less time with fewer resources? Riskconnect's RMIS system seamlessly integrates people, systems, and data to help you make more informed decisions about risk. Your costs go down and profitability goes up.

- Consolidate real-time risk data from multiple internal and external sources to identify trends, emerging risks, and opportunities.
- Understand the relationships between critical risks and the impact on the organization.
- Save time and money by streamlining and automating processes.
- Gain strategic insights to optimize your insurance program.
- Identify cost-savings opportunities that previously may have gone unnoticed.

Find Instant Relief from Daily Pain Points

If you're stuck tracking down information with endless back-and-forth emails, when are you supposed to figure out what it all means? Riskconnect's RMIS system streamlines and automates routine processes so you can say goodbye to boring repetitive tasks and hello to delivering human-worthy insights from data you trust.

- Automate routine tasks and eliminate duplicate work.
- Capture data consistently and thoroughly with standard templates, intuitive forms, and auto-filled fields.
- Minimize human error by guiding users through the data-collection process.
- Send alerts, reminders, and progress reports automatically.

Make Smarter Decisions Faster

Can you deliver the level of risk insight demanded by the C-suite? Riskconnect's RMIS system gives you unprecedented insight into your risks and their relationships so you can quickly and confidently decide what to do.

- Improve communication about risks across departments and with the C-suite.
- Create easy-to-interpret reports that communicate a clear picture of your risks.
- Seamlessly integrate data from carriers, TPAs, third-party vendors, and internal departments into one source of truth.
- Generate actionable insights using AI-embedded predictive analytics models
