

**Riskconnect's business continuity software helps you safeguard patient care, protect clinical operations, and maintain regulatory compliance during disruptions.**

**Instantly access dynamic business continuity plans.** Manage business continuity and emergency operations from one centralized location that automates regular reviews and approvals.

**Replace uncertainty with confidence.** Identify hidden vulnerabilities and program gaps that could derail clinical services.

**Effectively respond to a disruption.** Secure your hospital incident command system and response teams in real time with live situation reporting, online plan activation, and timely communication.

*“One of the big features for Riskconnect is that it’s a cloud solution. I can get to it from any device with a signal. This empowers our leaders, particularly those recovery team members that might not be looking at the plan every day. Being able to access tasks on the mobile app really helps in eliminating single points of failure.”*

*Brad Henske, Director of Business Continuity and Resilience, Carilion Clinic*

## Product Highlights

### BUSINESS CONTINUITY MANAGEMENT

Get a complete, automated planning experience in one platform to integrate patient-care continuity into your everyday operations.

### THREAT INTELLIGENCE

Monitor global threats in real time and respond faster and more efficiently to critical events.

### BUSINESS CONTINUITY & RESILIENCE CONSULTING AND MANAGED SERVICES

Tap into Riskconnect's expertise to develop a world-class program tailored to you.

### OPERATIONAL RESILIENCE

Strategically scope your program, identify critical clinical services, establish impact tolerance, and create an end-to-end digital model of the organization to quickly achieve compliance and mitigate disruptions.

### EMERGENCY NOTIFICATIONS

Communicate securely across the organization or within specific care teams throughout a crisis or disruption.

### CRISIS MANAGEMENT

Centralize critical information flows during an incident to promptly secure your response team, activate response plans, support HICS coordination, and get stakeholders on the same page.

### ARTIFICIAL INTELLIGENCE

Generate business continuity plans aligned to healthcare best practices with the power of AI.

### Expose Hidden Vulnerabilities Before Patient Care Is Disrupted

Has business as usual lulled you into a false sense of security? Riskconnect's Business Continuity & Resilience software helps you cut through the noise to identify – and eliminate – hidden vulnerabilities.

- Create an end-to-end digital model of your organization to understand services, obligations, dependencies, and vulnerabilities.
- Identify plausible disruption scenarios and model the impact on important clinical services.
- Stress-test your plans against disruption scenarios to expose gaps in response and recovery methods.

### Close the Gap Between Readiness and Response

When a crisis hits, who has time to dig through files to find the current response plan? Riskconnect's Business Continuity & Resilience software provides built-in crisis management and emergency notification tools, so you can confidently respond when it matters most.

- Instantly activate your response plans, track and manage tasks, share situation reports, and collaborate securely with encrypted chat.
- Drive emergency communications with embedded, enterprise-grade notification tools.
- Manage crisis coordination and emergency notifications straight from your mobile device.

### Focus on Strategy, Not Paperwork

Does strategic thinking get edged out by entering data into spreadsheets and other administrative tasks? Riskconnect's Business Continuity & Resilience software automates your program and integrates business continuity into your everyday operations, giving you more time to tackle important strategic projects.

- Drive efficiency by leveraging a single, user-friendly system for operational resilience, business continuity, crisis management, and emergency notifications.
- Seamlessly share information and reduce human error by connecting to gold-source data repositories.
- Streamline administrative tasks with prebuilt functionality, workflows, and templates based on best practices.

### Stay Ahead of Developing Healthcare Regulations

Struggling to keep your resilience plans up to date with new regulations? Riskconnect's Business Continuity & Resilience software helps you comply with ever-increasing regulatory requirements around preventing disruption and maintaining service continuity.

- Leverage out-of-the-box alignment with ISO 22301, including corrective actions and management reviews.
- Develop meaningful scorecards, dashboards, and reports that summarize key performance and risk indicators for accreditation reviews and audits.
- Safeguard patient care, strengthen compliance with CMS and Joint Commission standards, and ensure your organization can continue delivering life-critical services.
