

Riskconnect for the RETAIL INDUSTRY

Riskconnect software helps you manage risk, compliance, operations, store safety, and supply-chain challenges in one place.

Understand supplier risks. Monitor vendor and other third-party certifications, quality metrics, and level of risk to minimize your exposure.

Keep stores safe. Spot early warning signs, track incidents that turn into claims, and comply with complex regulations.

Stop cascading effects fast. See how risks correlate to quickly halt downstream effects that can wreak havoc on operations, safety, and brand trust.

[Riskconnect] has allowed us to bring the data together ... for a unified, holistic view. We've been able to get information and data out to our stores. And we're seeing dividends come in the form of reduced TRIR and DART rates ... We can react and respond faster, so the business can be more successful.

Prevent Costly Accidents

Every incident – from employee injuries in warehouses to customer falls in stores – not only harms people but also exposes you to claims, liability, and disruption.

Riskconnect can help you reduce preventable accidents, quickly respond to incidents, and efficiently manage the complete claims lifecycle.

Eliminate Supplier Surprises

Supply-chain disruptions and data breaches can cost millions, erode customer trust, and even disrupt operations.

Riskconnect gives you a clear picture of IT, cyber, and third-party risks with centralized documentation, customized assessments, and consistent risk scoring to help you get in front of vulnerabilities and guard against disruption.

Organize Compliance

Complying with such wide-ranging regulations as environmental health and safety, product, and employment is dizzyingly complex – with significant fallout for noncompliance.

Riskconnect can quickly organize large amounts of data from different sources to efficiently manage regulatory requirements and streamline reporting.
