

Riskconnect for the **TELECOMMUNICATIONS INDUSTRY**

Riskconnect software connects risk, compliance, and resilience data to help you proactively manage disruption, meet regulatory requirements, and protect customer trust.

Handle compliance with ease. Manage complex regulatory obligations from one place with automated reporting, audits, and controls.

Cut downtime. Identify threats early with built-in tools to speed response.

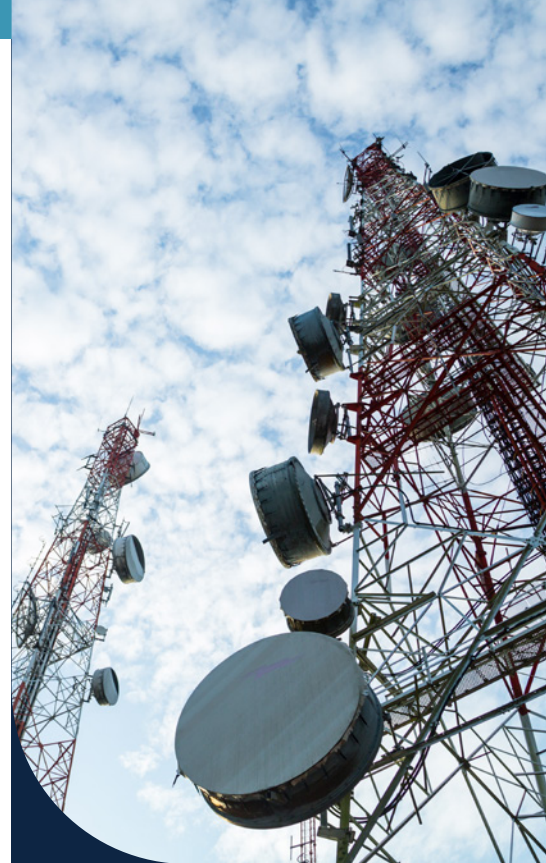

Stop cascading effects fast. See how risks correlate to quickly halt downstream effects that can wreak havoc on operations, trigger regulatory fines, and erode customer trust.

Get in Front of Trouble

Unplanned outages can jeopardize public safety and brand reputation, while causing catastrophic damage to the bottom line.

Riskconnect helps you anticipate and mitigate disruptions – from fiber cuts to server failures – to minimize downtime and maintain reliable service.

Eliminate Blind Spots

Risks hiding in multiple spreadsheets and silos can cause outsized damage to operations, service, and performance.

Riskconnect gives you enterprise-wide risk visibility across risk, compliance, and security for a single source of truth and consistent, unified reporting.

Avoid Costly Compliance Missteps

Failure to follow the intricate web of telecom regulations – from FCC and Ofcom rules to data privacy laws – can lead to investigations, sanctions, and customer churn.

Riskconnect has built-in compliance tracking to help you stay on top of tightening standards, maintain a clear audit trail, and automatically align with important industry regulations to avoid costly fines, boost performance, and strengthen customer loyalty.
